

American Constitutional Law University Textbook Series

If you ally habit such a referred **American Constitutional Law University Textbook Series** ebook that will find the money for you worth, acquire the agreed best seller from us currently from several preferred authors. If you desire to witty books, lots of novels, tale, jokes, and more fictions collections are in addition to launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all ebook collections American Constitutional Law University Textbook Series that we will unconditionally offer. It is not around the costs. Its very nearly what you compulsion currently. This American Constitutional Law University Textbook Series, as one of the most functional sellers here will very be along with the best options to review.

American Constitutional Law, Volume I Ralph A. Rossum 2018-05-04 American Constitutional Law, Volume I provides a comprehensive account of the nation's defining document, examining how its provisions were originally understood by those who drafted and ratified it, and how they have since been interpreted by the Supreme Court, Congress, the President, lower federal courts, and state judiciaries. Clear and accessible chapter introductions and a careful balance between classic and recent cases provide students with a sense of how the law has been understood and construed over the years. The Tenth Edition has been fully revised to include seven new cases, including key decisions National Labor Relations Board v. Noel Canning, Zivotofsky v. Kerry, Adoptive Couple v. Baby Girl, Horne v. Department of Agriculture and Comptroller of the Treasure of Maryland v. Wynne. A revamped and expanded companion website offers access to even more additional

cases, an archive of primary documents, and links to online resources, making this text essential for any constitutional law course.

Constructing Civil Liberties Ken I. Kersch 2004-08-02 Sample Text

American Constitutional Law Frank R. Strong 1950 Constitutional Law John E. Nowak 2004 Authoritative coverage analyzes the constitutional issues that are studied and litigated today. This text presents the origins of judicial review and federal jurisdiction, and the sources of national authority. Discusses federal commerce and fiscal powers. Overviews individual liberties and due process. Also covers freedom of speech and religion. Throughout the book, there are summations of the Supreme Court's work and evaluations of the judicial process.

American Constitutional Law Laurence H. Tribe 1978 **Liberalism and American Constitutional Law** Rogers M. Smith 1985 'A major work in the field of American

political and legal philosophy. Smith analyzes the liberal goals of the framers of the Constitution and the weaknesses of their political thought...This book will undoubtedly be the focus of debate in scholarly and legal circles for years to come...It is a work of grand scholarship.' -Thomas A. Karel, Law Books in Review

Constitutional Law for a Changing America: Rights, Liberties, and Justice (Ninth Edition) Lee Epstein
2015-09-15 The Ninth Edition continues well-loved features such as clear delineation between commentary and opinion excerpts, a "Facts" and "Arguments" section before every case, a superb photo program, "Aftermath" and "Global Perspective" boxes, and a wealth of tables, figures, and maps.

Constitutional Law for a Changing America Lee Epstein
2016-02-02 Judicial decisions are influenced by myriad political factors, from lawyers and interest groups, to the shifting sentiments of public opinion, to the ideological and behavioral inclinations of the justices. Authors Lee Epstein and Thomas G. Walker show how these dynamics shape the development of constitutional doctrine. Known for fastidious revising and streamlining, the authors incorporate the latest scholarship in the fields of both political science and legal studies and offer rock-solid analysis of both classic and contemporary landmark cases, including key opinions handed down through the 2015 session. Filled with supporting material—photographs of the litigants, sidebars comparing the U.S. with other nations, and "Aftermath" boxes that tell the stories of the parties' lives after the Supreme Court has acted—the text encourages greater student engagement with the material and a more complete understanding of the American constitution.

51 Imperfect Solutions Judge Jeffrey S. Sutton
2018-05-07 When we think of constitutional law, we invariably think of the United States Supreme Court and the federal court system. Yet much of our constitutional law is not made at the federal level. In *51 Imperfect Solutions*, U.S. Court of Appeals Judge Jeffrey S. Sutton argues that American Constitutional Law should account for the role of the state courts and state constitutions, together with the federal courts and the federal constitution, in protecting individual liberties. The book tells four stories that arise in four different areas of constitutional law: equal protection; criminal procedure; privacy; and free speech and free exercise of religion. Traditional accounts of these bedrock debates about the relationship of the individual to the state focus on decisions of the United States Supreme Court. But these explanations tell just part of the story. The book corrects this omission by looking at each issue—and some others as well—through the lens of many constitutions, not one constitution; of many courts, not one court; and of all American judges, not federal or state judges. Taken together, the stories reveal a remarkably complex, nuanced, ever-changing federalist system, one that ought to make lawyers and litigants pause before reflexively assuming that the United States Supreme Court alone has all of the answers to the most vexing constitutional questions. If there is a central conviction of the book, it's that an underappreciation of state constitutional law has hurt state and federal law and has undermined the appropriate balance between state and federal courts in protecting individual liberty. In trying to correct this imbalance, the book also offers several ideas for reform.

51 Imperfect Solutions Jeffrey S. Sutton 2018 "When we

think of constitutional law, we invariably think of the United States Supreme Court and the federal court system. Yet much of our constitutional law is not made at the federal level. In *51 Imperfect Solutions*, U.S. Court of Appeals Judge Jeffrey S. Sutton argues that American Constitutional Law should account for the role of the state courts and state constitutions, together with the federal courts and the federal constitution, in protecting individual liberties. The book tells four stories that arise in four different areas of constitutional law: equal protection; criminal procedure; privacy; and free speech and free exercise of religion. Traditional accounts of these bedrock debates about the relationship of the individual to the state focus on decisions of the United States Supreme Court. But these explanations tell just part of the story. The book corrects this omission by looking at each issue-and some others as well-through the lens of many constitutions, not one constitution; of many courts, not one court; and of all American judges, not federal or state judges. Taken together, the stories reveal a remarkably complex, nuanced, ever-changing federalist system, one that ought to make lawyers and litigants pause before reflexively assuming that the United States Supreme Court alone has all of the answers to the most vexing constitutional questions. If there is a central conviction of the book, it's that an underappreciation of state constitutional law has hurt state and federal law and has undermined the appropriate balance between state and federal courts in protecting individual liberty. In trying to correct this imbalance, the book also offers several ideas for reform." -- Publisher's website.

Jumpstart Constitutional Law Jethro Koller Lieberman

2013-09-01 Unlike Torts and Contracts, in which the facts are relatively consistent, cases that arise under the Constitution spring from a vast array of activities and appear to have little or no common thread. Shedding light on the threshold issues and substantive questions common to all constitutional law cases, *Jumpstart Constitutional Law: Reading and Understanding Constitutional Law Cases*, brings it all into focus. Key to constructing cogent answers on a Constitutional Law exam, Jethro K. Lieberman's straightforward approach teaches students how to spot the issues and respond to the relevant questions in any constitutional law case. *Jumpstart Constitutional Law* features: Perspective--A tour of the American Constitution from a bird's-eye-view Understanding threshold issues Who may decide Constitutional disputes? Under what circumstances may a court decide a case? Must the court take and answer a constitutional question in a proper case? Identifying substantive issues Determining the scope of governmental powers Federalism, and the relationship between federal and state powers Constitutional restraints that limit the exercise of governmental power Interpreting the Constitution Using tests to determine the limits of power and the extent of rights Tools of analysis for interpreting the Constitution The role of precedent and change Get into training--real preparation for taking the Constitutional Law exam A program for effective studying Sample constitutional law exam questions and answers Exam-taking strategie What are law students saying about *Jumpstart Constitutional Law*? "At the beginning of the semester in Con Law, I was overwhelmed by what was a very unfamiliar field of law and required a different way of reviewing cases than my other first-year courses. I wish I'd had *Jumpstart Constitutional*

Law. It teaches you how to take a heavy, dense amount of material and break it down into important bare facts."-- M.C. "As a 1L, you are constantly overwhelmed by terms you thought you knew only to discover their legal meaning is entirely foreign (e.g., "standing" and "ripeness"). Having Jumpstart Con Law's mini-con law dictionary with its simple definitions will be extremely helpful to students."--KAB "Con Law is a difficult subject. For example, the 14th Amendment has so many tests, restrictions, definitions, and concepts that it was difficult for me to keep track of which one applied where and what test to use. Jumpstart Constitutional Law separates out and describes the different due processes, the time-place-manner test, notice, hearing, state action, and the scrutiny tests. The book would have provided American Constitutional Law Charles A. Shanor 2003 Law school casebook covers structural constitutional law (federal judicial power, distribution of national powers, Congress' powers, federalism, and judicial protection of interstate commerce), and the reach of the Fourteenth Amendment (citizenship, privileges and immunities, due process, equal protection, and state action). Contains approximately 80 primary cases, including a greater proportion of recent Supreme Court decisions than other casebooks in the field. The notes provide the context, and realistic problems require application of constitutional law principles and cases and undecided issues. Facilitates teacher and student satisfaction in understanding the basic framework of American Constitutional law.

Constitutional Law for a Changing America Lee J. Epstein 2020-09-29 Political factors influence judicial decisions. Arguments and input from lawyers and interest groups, the ebb and flow of public opinion, and

especially the ideological and behavioral inclinations of the justices all combine to shape the development of constitutional doctrine. Drawing on political science as much as from legal studies, *Constitutional Law for a Changing America* helps students realize that Supreme Court cases are more than just legal names and citations. With meticulous revising, the authors streamline material while accounting for recent landmark cases and new scholarship. Ideal for a one semester course, the Eighth Edition of *Short Course* offers all of the hallmarks of the *Rights and Powers* volumes in a more condensed format. Students and instructors benefit from the online Con Law Resource Center which houses the supplemental case archive, hypothetical cases, links to CQ Press reference materials, a moot court simulation, study resources, and more.

Constitutional Law and Criminal Justice Cliff Roberson 2021-12-28 Illuminating US constitutional concepts in plain language and clarifying nuances in the law, this third edition of *Constitutional Law and Criminal Justice* simplifies understanding of the United States judicial system for those without advanced legal training. It updates recent decisions by the Supreme Court of the United States and includes a discussion on the current makeup and policy of the Supreme Court. Learning objectives and summary outlines of recent Supreme Court decisions, combined with practical examples and selected actual court documents, enhance students' understanding of the most important issues regarding the US Constitution and its application in the criminal justice system. The book begins with an overview of the Bill of Rights, followed by an examination of the components of the judiciary. It moves on to a discussion of due process; the First, Fourth, Fifth, Sixth, and Eighth

Amendments; and the exclusionary rule. A unique chapter addressing civil liability and the criminal justice professional is especially relevant to students in criminal justice programs. Concise and informative, this book is designed to be used in undergraduate courses in criminal justice and justice administration programs in universities and community colleges.

American Constitutional Interpretation Walter F. Murphy 1995

American Constitutional Law Laurence H. Tribe 1988
Approaches to Constitutional Analysis; Model I: Model of Separated and Divided Powers; Federal Judicial Power; Federal Executive Power; Federal Legislative Power; Federalism-Based Limits on State and Local Power; Direct Protection of Individuals and Groups; Model II: The Model of Implied Limitations on Government; Model III: Model of Settled Expectations; Model IV: Model of Regularity; Model V: Model of Preferred Rights; Rights of Communication and Expression; Rights of Political Participation; Rights of Religious Autonomy; Rights of Privacy and Personhood; Model VI: The Model of Equal Protection; Model VII: Toward a Model of Structural Justice?; Problem of State Action.

The U.S. Constitution and Comparative Constitutional Law Steven Calabresi 2016-03-21 With an Introduction by Justice Alito, this Comparative Constitutional Law casebook stands apart from other casebooks. It focuses on the 15 constitutional democracies in the G-20 Nations: 1) the United States, 2) the United Kingdom, 3) France, 4) Germany, 5) Japan, 6) Italy, 7) India, 8) Canada, 9) Australia, 10) Brazil, 11) South Korea, 12) South Africa, 13) Indonesia, 14) Mexico, and 15) the European Union. The G-20 Nations together comprise 85% of the world's GDP and two-thirds of the world's

population. Thus, this casebook maintains a better sense of relevance than similar books, which often focus heavily on esoteric jurisdictions. It is also less Euro-centric than competing books; most chapters include cases from Brazil, Mexico, and India. Substantively, this casebook compares the constitutional law of the selected countries with respect to fourteen topics: 1) constitutionalism - constitutional history, constitution-making, amendment, and secession rules; 2) the emergence and nature of judicial review; 3) the separation of powers, bicameralism, and comparative administrative law; 4) federalism; 5) bills of rights, birthright freedom and equality, and human dignity; 6) equal protection of the laws; 7) freedom of expression; 8) freedom of religion; 9) civil, criminal, and appellate procedure; 10) protection of economic liberties; 11) positive social entitlements and state action; and, finally, 12) constitutional guarantees of democracy. It concludes with ideas that are of particular relevance to U.S. constitutional law.

Pedagogically, this casebook contains more cases and fewer law review articles than competing books, making it teacher-friendly. It can be taught in a three-day weekly format, in a two-day weekly format, or in a once-a-week seminar format. It is accompanied by a comprehensive teacher's manual and suggested syllabi.

American Constitutional Law Bernard Schwartz 1955
Constitutional Law and American Democracy Corey Brettschneider 2011-12-01 In what promises to become a foundational undergraduate and law school text, *Constitutional Law and American Democracy: Cases and Readings* goes beyond parsing cases, providing ample **An Introduction to the American Legal System, Government, and Constitution** Diane S. Kaplan 2015-08-10

This new coursebook introduces students to the relationship among the American constitutional, governmental, and legal systems. With a clear and concise presentation, this book explores historical and contemporary events, judicial opinions, and constitutional provisions that demonstrate how the three systems accommodate social progress in an ever-changing and highly diverse nation. Perfect for LLM courses or even undergraduate classes, this book aims to teach students how to understand constitutional doctrines, brief judicial opinions, and how American history affects contemporary legal issues. Features: Clear and concise presentation and logical organization of material making it an excellent introductory book to the American legal system Inclusion of modern cases on relevant topics, such as same-sex marriage, legalization of marijuana, and homicidal laws affecting juveniles Chapter questions that facilitate basic legal analysis through hypotheticals, opinion briefing, and application of constitutional provisions Inclusion of important historical and political events, such as lawsuits brought against Presidents, congressional impeachment powers, the Electoral College System, the Supreme Court's resolution of voting issues, the Civil War and post Civil War constitutional amendments, the Civil Rights movement, presidential and congressional war powers, and Supreme Court opinions about Guantanamo Bay detainees *American Constitutional Law* Calvin R. Massey 2016-01-27 Shorter than most Constitutional Law casebooks, *American Constitutional Law: Powers and Liberties*, 5E provides a broad survey of the field without overwhelming students. The basics of constitutional theory are presented without getting mired in highly theoretical discussions and cases are tightly edited to focus on the most

important aspects with additional cases on select topics condensed into narrative summaries. The book focuses on cases and expository text rather than extensive academic commentary, and introductory text provides direction to students as they read and analyze the materials that follow. Additionally, challenging hypotheticals are provided throughout the text for use as student self-assessments or to launch stimulating class discussions. This highly teachable book can be used for a one- or two-semester course and is easily adaptable to suit each professor's preferences.

The Arc of Due Process in American Constitutional Law E. Thomas Sullivan 2013-07-04 In *The Arc of Due Process in American Constitutional Law*, Sullivan and Massaro identify the historical underpinnings of due process while describing the evolution of the American due process doctrine.

The Dynamic Constitution Richard H. Fallon, Jr 2013-04-22 In this revised and updated second edition of *The Dynamic Constitution*, Richard H. Fallon, Jr provides an engaging, sophisticated introduction to American constitutional law. Suitable for lawyers and non-lawyers alike, this book discusses contemporary constitutional doctrine involving such issues as freedom of speech, freedom of religion, rights to privacy and sexual autonomy, the death penalty, and the powers of Congress. Through examples of Supreme Court cases and portraits of past and present Justices, this book dramatizes the historical and cultural factors that have shaped constitutional law. *The Dynamic Constitution*, 2nd edition, combines detailed explication of current doctrine with insightful analysis of the political culture and theoretical debates in which constitutional practice is situated. Professor Fallon uses insights

from political science to explain some aspects of constitutional evolution and emphasizes features of the judicial process that distinguish constitutional law from ordinary politics.

American Constitutional Law Calvin R. Massey 2019-03-07
American Constitutional Law: Powers and Liberties, Sixth Edition provides a broad survey of the field without overwhelming students. The basics of constitutional theory are presented without getting mired in highly theoretical discussions, and cases are tightly edited to focus on the most important aspects, with additional cases on select topics condensed into narrative summaries. The book focuses on cases and expository text rather than extensive academic commentary, and introductory text provides direction to students as they read and analyze the materials that follow.

Additionally, challenging hypotheticals are provided throughout the text for use as student self-assessments or to launch stimulating class discussions. This highly teachable book can be used for a one- or two-semester course and is easily adaptable to suit each professor's preferences. New to the Sixth Edition: Updated through the Supreme Court's 2017-2018 Term Excerpts of major cases including: *Murphy v. NCAA*, *Trump v. Hawaii*, *Whole Woman's Health v. Hellerstedt*, *Fisher v. Texas*, *Matal v. Tam*, *Packingham v. North Carolina*, *National Institute of Family and Life Advocates v. Becerra*, *Trinity Lutheran Church v. Comer*, and *Masterpiece Cakeshop, Ltd. v. Colorado Civil Rights Commission* Summaries or omissions of older or outdated cases to reduce length New questions and problems for added cases to promote self-assessment Professors and students will benefit from: Easy adaptation to a one- or two-semester course "Just-right" editing of major cases, with less important cases

summarized in notes or narrative summary Even-handed presentation of cases so adopters don't have to "teach against" the text Narrative introductions that provide students with context and organizational structure Annual Supplement

American Constitutional Law Bernard Schwartz 2013-09-19
Originally published in 1955, this book presents the workings of American constitutional law for a non-American audience.

Constitutional Law Kathleen M. Sullivan 2007
The Sixteenth Edition provides comprehensive coverage of all areas of constitutional law, including judicial review, separation of powers, federalism, due process, equal protection, free speech, and religious liberty. It emphasizes constitutional law as a species of law, and aims to enable students who use it to practice constitutional law as lawyers. It also seeks to illuminate the historical, theoretical, and philosophical background that bears on constitutional law and informs its practice. The 16th edition thoroughly revises, updates and streamlines this classic casebook, emphasizing contemporary problems in areas from the war on terror to new uses of the Internet. Highlights of the 16th edition include the final decisions of the Rehnquist Court, a preliminary look at the first two terms of the Roberts Court, and expanded analysis of recent controversial decisions from *Hamdan v. Rumsfeld* to *Gonzales v. Raich* and *Kelo v. City of New London*. It includes all key constitutional cases through the 2006-2007 Supreme Court Term, including the Court's latest holdings on abortion, race-based assignments in the public schools, drug-related speech by public school students, and limits on campaign finance.

Constitutional Law Michael C. Dorf 2010 The Oxford

Introductions to U.S. Law: Constitutional Law presents an accessible introduction to the enduring topics of American constitutional law, including judicial review, methods of interpretation, federalism, separation of powers, equal protection, and individual liberties. One of the most important functions performed by the American Constitution and the more than two centuries' worth of cases interpreting it is the allocation of decision-making. Professor Dorf and Professor Morrison frame many of these constitutional debates with this question of authority. When should courts rule that the Constitution takes some issue outside of the domain of ordinary politics? Should courts referee disputes between the branches of the federal government? Should they referee disputes between the states and the national government? Using what standards? This introduction to American constitutional law critically examines the work of the Supreme Court of the United States, which has resolved thousands of constitutional controversies based on the shortest national constitution on the planet. The authors also look beyond the Supreme Court, exploring the arguments for and against judicial review and various versions of popular constitutionalism.

American Constitutional Law, Volume II Ralph A. Rossum 2018-05-15 American Constitutional Law, Volume II provides a comprehensive account of the nation's defining document, examining how its provisions were originally understood by those who drafted and ratified it, and how they have since been interpreted by the Supreme Court, Congress, the President, lower federal courts, and state judiciaries. Clear and accessible chapter introductions and a careful balance between classic and recent cases provide students with a sense

of how the law has been understood and construed over the years. The Tenth Edition has been fully revised to include twelve new cases, including key decisions *Obergefell v. Hodges*, *Burwell v. Hobby Lobby Stores*, *Shelby County v. Holder*, *Horne v. Department of Agriculture*, and *Riley v. California*. A revamped and expanded companion website offers access to even more additional cases, an archive of primary documents, and links to online resources, making this text essential for any constitutional law course.

United States Constitutional Law DANIEL A.. SIEGEL FARBER (NEIL S.) 2019-02-06 United States Constitutional Law guides law students, political science students, and engaged citizens through the complexities of U.S. Supreme Court doctrine--and its relationship to constitutional politics--in key areas ranging from federalism and presidential power to equal protection and substantive due process. Rather than approach constitutional law as a static structure or imagine the Supreme Court as acting in isolation from society, the book elaborates and clarifies key constitutional doctrines while also drawing on scholarship in law and political science that relates the doctrines to large social changes such as industrialization, social movements such as civil rights and second-wave feminism, and institutional tensions between governmental actors. Combining legal analysis with historical narrative and sensitivity to political context, the book provides deeper understanding of how constitutional law arises, functions, and changes in a complex, often-divided society.

American Constitutional Law Charles A. Shanor 2007-08 This law school casebook supplement reflects the major lines of Supreme Court authority, placing cases within

an historical context and organizational framework appropriate for law students. Focuses on the structure of the Constitution and its reconstruction, both by amendment and by judicial interpretation. Does not cover the First Amendment. This supplement covers the U.S. Supreme Court's decisions from the current term, plus additional notes, questions, and review problems built around these cases and other developing areas of American Constitutional Law.

State Constitutional Law Randy James Holland 2010 This new case book addresses the constitutions of the 50 States. It is designed for a survey course, one that does not purport to cover every State's constitution in detail. Rather, like a traditional contracts, real property or torts textbook, it uses the most interesting state court decisions from around the country to illustrate the astonishing array of state constitutional issues at play in modern American law. The method of presentation emphasizes the function of state constitutions in our federal system. It sometimes does so by explaining how the U.S. Constitution deals with an issue before discussing how the state constitutions handle it, and it sometimes does so by explaining how the state constitutions contain provisions that have no parallel in the U.S. Constitution. A central theme of the book, explored in a variety of areas, is that state constitutions provide a source of rights independent of the Federal Constitution, and state courts frequently construe these provisions to grant more expansive protection for individual rights than the Federal Constitution provides. As the reader will see, the state courts' expansion of liberty and property rights under their constitutions stems from a variety of factors: differences in the text between the state and federal

constitutional provisions, the smaller size of the state courts' jurisdiction, state constitutional history, unique state traditions and disagreement with the U.S. Supreme Court's interpretation of similar language. State constitutional law, like its federal counterpart, is not limited to individual rights. The book also explores the organization and structure of state and local governments, the method of choosing state judges, the ease with which most state constitutions can be amended, taxation, public finance and school funding. As the nightly news confirms, it is no exaggeration to say that many of the most ground-breaking constitutional debates of the day are being aired in the state courts under their own constitutions. The mission of this book is to introduce students to this increasingly significant body of American law and to prepare them to practice effectively in it.

How Rights Went Wrong Jamal Greene 2021-03-16 An eminent constitutional scholar reveals how the explosion of rights is dividing America, and shows how we can build a better system of justice. You have the right to remain silent and the right to free speech. The right to worship, and to doubt. The right to be free from discrimination, and to hate. The right to marry and to divorce; to have children and to terminate a pregnancy. The right to life, and the right to own a gun. Rights are a sacred part of American identity. Yet they were an afterthought for the Framers, and early American courts rarely enforced them. Only as a result of the racial strife that exploded during the Civil War--and a series of resulting missteps by the Supreme Court--did rights gain such outsized power. The result is a system of legal absolutism that distorts our law and debases our politics. Over and over again, courts have treated rights

conflicts as zero-sum games in which awarding rights to one side means denying rights to others. As eminent legal scholar Jamal Greene shows in *How Rights Went Wrong*, we need to recouple rights with justice--before they tear society apart.

Introduction to American Constitutional Law: Structure and Rights PROFESSOR WILLIAM F. FUNK 2020-02-05 Unlike most constitutional law books, this book does not assume that the students have any particular knowledge of American history, government, or law, so it begins with a rich introductory chapter to provide students with a necessary foundation for the rest of the material. Thereafter, it supplements the familiar cases with historical context and pictures and biographies of current and famous justices adjacent to their opinions. It makes the traditional canon accessible and enjoyable to the current generation. Easily covered over two semesters, the book manages through careful case selection to avoid drastic editing of all but the longest cases.

An Introduction to Constitutional Law Randy E. Barnett 2019-09-13 Buy a new version of this book and receive access to the video series that accompanies the text hosted on CasebookConnect.com. This multimedia platform combines a book and video series that will change the way you study constitutional law. An Introduction to Constitutional Law teaches the narrative of constitutional law as it has developed over the past two centuries. All students—even those unfamiliar with American history—will learn the essential background information to grasp how this body of law has come to be what it is today. An online library of sixty-three videos brings the Supreme Court's one hundred most important decisions to life. These videos are enriched

by photographs, maps, and even audio from the Supreme Court. The book and videos are accessible for all levels: law school, college, high school, home school, and independent study. Students can read and watch these materials before class to prepare for lectures or study after class to fill in any gaps in their notes. And, come exam time, students can binge-watch the entire canon of constitutional law in about twelve hours. To receive access to the video series you must purchase a new version of the book.

The Dynamic Constitution Richard H. Fallon, Jr 2013-04-22 Furnishes a fundamental introduction to American constitutional law for non-lawyers, covering such topics as the freedom of speech and the guarantee of equal protection, as well as the cases and personalities that have shaped constitutional law.

Law's Infamy Austin Sarat 2021-12-21 An analysis of how problematic laws ought to be framed and considered From the murder of George Floyd to the systematic dismantling of voting rights, our laws and their implementation are actively shaping the course of our nation. But however abhorrent a legal decision might be—whether *Dred Scott v. Sanford* or *Plessy v. Ferguson*—the stories we tell of the law's failures refer to their injustice and rarely label them in the language of infamy. Yet in many instances, infamy is part of the story law tells about citizens' conduct. Such stories of individual infamy work on both the social and legal level to stigmatize and ostracize people, to mark them as unredeemably other. *Law's Infamy* seeks to alter that course by making legal actions and decisions the subject of an inquiry about infamy. Taken together, the essays demonstrate how legal institutions themselves engage in infamous actions and urge that scholars and activists label them as such,

highlighting the damage done when law itself acts infamously and focus of infamous decisions that are worthy of repudiation. Law's Infamy asks when and why the word infamy should be used to characterize legal decisions or actions. This is a much-needed addition to the broader conversation and questions surrounding law's complicity in evil.

American Constitutional Law Louis Fisher 2011 This paperback volume (subtitled "Constitutional Rights: Civil Rights and Civil Liberties") includes chapters 10 through 19 of Fisher/Harriger, American Constitutional Law, Ninth Edition (hardback). Now in its ninth edition, American Constitutional Law is the only book that develops constitutional law in the comprehensive sense. Along with containing analyses and excerpts of court decisions, the book highlights the efforts of legislatures, executives, the states, and the general public to participate in an ongoing political dialogue rather than passively receive a series of unilateral judicial commands. It covers all new developments in case law, congressional statutes, presidential policies, and initiatives undertaken by states under their own constitutions. The book includes readings not only from cases but congressional floor debates, committee reports, committee hearings, presidential vetoes and other statements, state actions, Federalist papers, and professional journals. It also includes a chapter on equal protection that addresses immigration law and the rights of aliens.

Constitutional Law for a Changing America Lee Epstein 2021-08 "Political factors influence judicial decisions. Arguments and input from lawyers and interest groups, the ebb and flow of public opinion, and especially the ideological and behavioral inclinations of the justices

all combine to influence the development of constitutional doctrine. Constitutional Law for a Changing America draws on political science as well as legal studies to analyze and excerpt cases. With meticulous revising and updating throughout, Epstein and Walker streamlined material while accounting for recent landmark cases and new scholarship. The Eleventh Edition adds more coverage on freedom of speech through recent cases such as Janus v. American Federation of State, County, and Municipal Employees, freedom of religion through American Legion v. American Humanist Association, and a closer examination of one of the problems at the intersection of the Fourth Amendment and modern technology (Carpenter v. United States)"--

The Invisible Constitution Laurence H. Tribe 2008-09-17 As everyone knows, the United States Constitution is a tangible, visible document. Many see it in fact as a sacred text, holding no meaning other than that which is clearly visible on the page. Yet as renowned legal scholar Laurence Tribe shows, what is not written in the Constitution plays a key role in its interpretation. Indeed some of the most contentious Constitutional debates of our time hinge on the extent to which it can admit of divergent readings. In *The Invisible Constitution*, Tribe argues that there is an unseen constitution--impalpable but powerful--that accompanies the parchment version. It is the visible document's shadow, its dark matter: always there and possessing some of its key meanings and values despite its absence on the page. As Tribe illustrates, some of our most cherished and widely held beliefs about constitutional rights are not part of the written document, but can only be deduced by piecing together hints and clues from it. Moreover, some passages of the Constitution do not

even hold today despite their continuing existence. Amendments may have fundamentally altered what the Constitution originally said about slavery and voting rights, yet the old provisos about each are still in the text, unrevised. Through a variety of historical episodes and key constitutional cases, Tribe brings to life this invisible constitution, showing how it has evolved and how it works. Detailing its invisible structures and principles, Tribe compellingly demonstrates the invisible constitution's existence and operative power. Remarkably original, keenly perceptive, and written with Tribe's trademark analytical flair,

this latest volume in Oxford's Inalienable Rights series offers a new way of understanding many of the central constitutional debates of our time. About the Series: Combining authority with wit, accessibility, and style, Very Short Introductions offer an introduction to some of life's most interesting topics. Written by experts for the newcomer, they demonstrate the finest contemporary thinking about the central problems and issues in hundreds of key topics, from philosophy to Freud, quantum theory to Islam.

American Constitutional Law Laurence H. Tribe 1999
