Documentary Erik Barnouw 1993 Presents a history of the documentary film Dante on View Antonella Braida 2017-05-15 Dante on View opens an important new dimension in Dante studies: for the first time a collection of essays analyses the presence of the Italian Medieval poet Dante Alighieri in the visual and

performing arts from the Middle Ages to the present day. The essays in this volume explore the image of Dante emerging in medieval illuminated manuscripts and later ideological and nostalgic uses of the poet. The volume also demonstrates the rich diversity of projects inspired by the Commedia both as an overall polysemic structure and as a repository of scenes, which generate a repertoire for painters, actors and film-makers. In its original multimediality, Dante's Commedia stimulates the performance of readers and artists working in different media from manuscript to stage, from ballet to hyperinstruments, from film to television. Through such a variety of media, the reception of Dante in the visual and performing arts enriches our understanding of the poet and of the arts represented at key moments of formal and structural change in the European cultural world.

Fire in Montana Greg Martin

2006-05 In the summer of 1949 fifteen smokejumpers parachuted into a remote Montana canyon called Mann Gulch. It started as a very small fire in rugged country but within two hours after landing, thirteen of these young men were caught in a raging inferno and were killed. They died bravely, together with their friends, and in the service of their country. Everyone was young and attractive, healthy and strong, enthusiastic and in love. They were bursting into the prime of their lives. There were no

malcontents here. Everyone did their best but events overtook them. Until now the actual time line has never been connected to the people involved. Fire in Montana connects the lives of young smokejumpers who lived with a joy of life and expectations of shining futures, the forest rangers and volunteers who fought valiantly to rescue them, and their families, lovers, and friends who were forced to wait and pray, then face the devastating and heart wrenching loss.

Law: A Very Short Introduction
Raymond Wacks 2008-03-27

Law underlies our society - it protects our rights, imposes duties on each of us, and establishes a framework for the conduct of almost every social, political, and economic activity. The punishment of crime, compensation of the injured, and the enforcement of contracts are merely some of the tasks of a modern legal system. It also strives to achieve justice, promote freedom, and protect our security. The result is a system that, while it touches all of our

daily lives, is properly understood by only a few, with its impenetrable jargon, obsolete procedures, and interminable stream of Byzantine statutes and judgments of the courts. This clear, jargon-free Very Short Introduction aims to redress that balance, as it introduces the essentials of law and legal systems in a lively, accessible, and stimulating manner.

Explaining the main concepts, terms, and processes of the legal system, it focuses on the Western tradition (the common law and the civil law), but also includes discussions of other legal systems, such as customary law and Islamic law. And it looks to the future too, as globalization and rapid advances in technology place increasing strain on our current legal system. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our

expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Underwater Dogs Seth Casteel

2012-10-23 The exuberant, exhilarating photographs of dogs underwater that have become a sensation From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus and determination of a shark. In more than eighty portraits, award-winning pet

photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In *Underwater Dogs*, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.
