[Rurality and Education](#) Barbara Pini 2020-04-30 This book broadens the scope of the subject of rural education and enlivens the ways in which the subject may be studied. Through textual and visual analysis of a range of sources - including young adult novels, the farming simulation game 'Hay Day' and reality television programs - the contributors investigate how the lives of young people in rural spaces are mediated by a range of social locations including class, ethnicity and sexuality. Additionally, through rich and detailed ethnographic work, the book

explores the complicated and multifaceted meanings of rural places and examines how these meanings shape experiences of schooling for teachers and students. In doing so, the book embeds the study of rural education in explorations of patrilineal inheritance on family farms, international migration, globalisation and economic restructuring. It aims to start a conversation about the robust and complex ways in which the confluence between 'rural' and 'education' may be imagined, experienced and researched. This book was originally published as a special issue of *Discourse: Studies in the Cultural Politics of Education*.  
**de Swiet's Medical Disorders in Obstetric Practice** Raymond Powrie 2010-12-17 Pregnancy affects the physiology of women as their bodies adapt to the growing life within them; but how does this affect how you manage general, or pre-existing medical complaints? How do you differentiate the effects of pregnancy from genuine medical conditions? What are the effects of the 'standard' treatments on the growing fetus? What about breastfeeding? In this brand-new edition of de Swiet's *Medical Disorders in Clinical Practice*, expert physicians present the best evidence and practical wisdom to guide you and your patients through their pregnancy and illness, to a successful birth and early motherhood. Using a combination of algorithms, years of experience and an evidence-based approach, this book will help you to: Diagnose difficult to identify conditions during pregnancy Effectively prescribe for pregnant and

lactating women Overcome the challenges of imaging, anesthesia and critical care for pregnant women de Swiet's assists you in navigating the many challenges pregnancy presents for both the patient and physician. **The Land Within** Pedro García Hierro 2005 By describing the fabric of relationships indigenous peoples weave with their environment, *The Land Within* attempts to define a more precise notion of indigenous territoriality. A large part of the work of titling the South American indigenous territories may now be completed but this book aims to demonstrate that, in addition to management, these territories involve many other complex aspects that must not be overlooked if the risk of losing these areas to settlers or extraction companies is to be avoided. Alexandre Surralls holds a doctorate in anthropology from the School for Higher Studies in Social Sciences and is a researcher on the staff of the National Centre for Scientific Research. Pedro Garca Hierro is a lawyer from Madrid Complutense University and the Pontifical Catholic University of Peru. He has worked with various indigenous organizations, on issues related to the identification and development of collective rights and the promotion of intercultural democratic reforms.

**Rebuilding the State Institutions** Juan Antonio Le Clercq 2019-11-29 Contemporary Mexico faces a complex crisis of violence and insecurity with high levels of impunity and the lack of an effective rule of law. These weaknesses in the rule of law are multidimensional and involve elements of institutional design, the specific content of the laws,

particularities of political competition and a culture of legality in a country with severe social inequalities. This book discusses necessary institutional and legal reforms to develop the rule of law in a context of democratic, social and economic transformations. The chapters are organized to address: 1) The concept of the 'rule of law' and its measurement; 2) The fragility of the 'rule of law' in Mexico; 3) Structural reforms and implementation challenges; 4) Social exclusion and the culture of legality. The book addresses decision-makers, civil servants, consultants, scholars, lecturers, and students focusing on public policy, rule of law, sociology of law, legislative studies and practice, impunity, and areas of political philosophy. • The book presents an interdisciplinary and integrated approach for understanding the rule of law in Mexico, taking into account national particularities, the regional context and global comparisons. • Chapters discuss recent institutional reforms in Mexico from a critical point of view and explore possible next steps to achieve effective implementation. • This book addresses the links between a weak rule of law and social phenomena like insecurity, violence, corruption and democratic deficits.

*A Practical Manual of Diabetes in Pregnancy* David McCance 2017-09-20 The revised and updated second edition of a multidisciplinary, evidence-based clinical guide for the care of pregnant women with diabetes The second edition of *A Practical Manual of Diabetes in Pregnancy* offers a wealth of new evidence, new material, new technologies, and the most current approaches to care. With contributions from a team of international experts, the manual is highly accessible and comprehensive in scope. It covers topics ranging from preconception to postnatal care, details the risks associated with diabetic pregnancy, and the long-term implications for the mother and baby. The text also explores recent controversies and examines thorny political pressures. The manual's treatment recommendations are based on the latest research to ensure pregnant women with diabetes receive the best possible care. The text

takes a multi-disciplinary approach that reflects best practice in the treatment of diabetes in pregnancy. The revised second edition includes: New chapters on the very latest topics of interest Contributions from an international team of noted experts Practical, state-of-the-art text that has been fully revised with the latest in clinical guidance Easy-to-read, accessible format in two-color text design Illustrative case histories, practice points, and summary boxes, future directions, as well as pitfalls and what to avoid boxes Multiple choice questions with answers in each chapter Comprehensive and practical, the text is ideal for use in clinical settings for reference by all members of the multi-disciplinary team who care for pregnant women with diabetes. The manual is also designed for learning and review purposes by trainees in endocrinology, diabetes, and obstetrics.

**Coyote's Land** Margery Wolf 2018-07-26 Via time travel, Charlotte Makee, a 21st century anthropologist, meets an elderly Coast Miwok curer named Sekiak in the hills near Olompali in Marin County, California. Charlotte wishes to learn about Coast Miwok life before their society was disrupted and then destroyed by Catholic priests, Spanish soldiers, settlers, and other foreigners over less than 100 years. Once Sekiak decides to work with Charlotte, she administers a potion that renders her visitor invisible to all but Sekiak and one or two others. That potion also allows Charlotte to comprehend Miwok speech, and she embarks on ethnographic fieldwork, listening and observing in the nearby settlements with Sekiak as her primary teacher of local customs and history. As the two women move back and forth through time, Charlotte fills dozens of notebooks with data about Coast Miwok life that she intends to draw upon to tell the story of what happened to the people of Coyote's Land. But as Margery Wolf's "novel ethnography" unfolds, an ominous air settles over the research enterprise, comparable to the ominous air of death and devastation that demolish a once-thriving society. This experimental ethnography joins fiction to historical and cultural data, helping us to feel and see what happened as the Coast Miwok world turned upside down and then was altered beyond recognition.

*After Ethnos* Tobias Rees 2018-11-23 For most of the twentieth century, anthropologists understood themselves as ethnographers. The art of anthropology was the fieldwork-based description of faraway others—of how social structures secretly organized the living-together of a given society, of how a people had endowed the world surrounding them with cultural meaning. While the poetics and politics of anthropology have changed dramatically over the course of a century, the basic equation of anthropology with ethnography—as well as the definition of the human as a social and cultural being—has remained so evident that the possibility of questioning it occurred to hardly anyone. In *After Ethnos* Tobias Rees endeavors to decouple anthropology from ethnography—and the human from society and culture—and explores the manifold possibilities of practicing a question-based rather than an answer-based anthropology that emanates from this decoupling. What emerges from Rees's provocations is a new understanding of anthropology as a philosophically and poetically inclined, fieldwork-based investigation of what it could mean to be human when the established concepts of the human on which anthropology has been built increasingly fail us.

*Marsden's Book of Movement Disorders* Ivan Donaldson 2012-03-29 This book represents the final work of the late Professor C. David Marsden, who was the most influential figure in the field of movement disorders, in terms of his contributions to both research and clinical practice, in the modern era. It was conceived and written by David Marsden and his colleague at the Institute of Neurology, Prof. Ivan Donaldson. It was their intention that this would be the most comprehensive book on movement disorders and also that it would serve as the 'clinical Bible' for the management of these conditions. It provides a masterly survey of the entire topic, which has been made possible only by vast laboratory and bedside experience. *Marsden's Book of Movement Disorders* covers the full breadth of movement disorders, from the underlying anatomy and understanding of basal ganglia function to the diagnosis and

management of specific movement disorders, including the more common conditions such as Parkinson's Disease through to rare, and very rare conditions such as Niemann-Pick disease. Chapters follow a structured format with historical overviews, definitions, clinical features, differential diagnosis, investigations and treatment covered in a structured way. It is extensively illustrated with many original photographs and diagrams of historical significance. Among these illustrations are still images of some original film clips of some of Dr. Marsden's patients published here for the first time. Comprehensively referenced and updated by experts from the Institute of Neurology at Queen Square, this book is a valuable reference for, not just movement disorder specialists and researchers, but also for clinicians who care for patients with movement disorders.

**US Troops in Europe** Phil Williams 2021-01-27 This book, first published in 1984, analyses the contribution of the American military presence to the security of Western Europe; examines the advantages and shortcomings of proposals for strengthening NATO's conventional capacity; and considers the consequences to the Cold War balance of power of a reduction in the American troop contingent.

Water, Cultural Diversity, and Global Environmental Change Barbara Rose Johnston 2011-12-07 Co-published with UNESCO A product of the UNESCO-IHP project on Water and Cultural Diversity, this book represents an effort to examine the complex role water plays as a force in sustaining, maintaining, and threatening the viability of culturally diverse peoples. It is argued that water is a fundamental human need, a human right, and a core sustaining element in biodiversity and cultural diversity. The core concepts utilized in this book draw upon a larger trend in sustainability science, a recognition of the synergism and analytical potential in utilizing a coupled biological and social systems analysis, as the functioning viability of nature is both sustained and threatened by humans.

**WHO Recommendations on Intrapartum Care for a Positive Childbirth Experience** World Health Organization 2018-06-25 This up-to-date, comprehensive and consolidated guideline on essential intrapartum care brings together new and existing WHO recommendations that, when delivered as a package, will ensure good-quality and evidence-based care irrespective of the setting or level of health care. The recommendations presented in this guideline are neither country nor region specific and acknowledge the variations that exist globally as to the level of available health services within and between countries. The guideline highlights the importance of woman-centered care to optimize the experience of labor and childbirth for women and their babies through a holistic, human rights-based approach. It introduces a global model of intrapartum care, which takes into account the complexity and diverse nature of prevailing models of care and contemporary practice. The recommendations in this guideline are intended to inform the development of relevant national- and local-level health policies and clinical protocols. Therefore, the target audience includes national and local public health policy-makers, implementers and managers of maternal and child health programs, health care facility managers, nongovernmental organizations (NGOs), professional societies involved in the planning and management of maternal and child health services, health care professionals (including nurses, midwives, general medical practitioners and obstetricians) and academic staff involved in training health care professionals.

**Hypertension in Pregnancy** Alexander Heazell 2010-08-26 Hypertensive disorders are among the most common medical complications of pregnancy, with an incidence of approximately 6-10%. This spectrum of conditions includes essential hypertension, pre-eclampsia and HELLP syndrome. For patients with pre-existing hypertension, management ideally commences prior to conception, and continues through pregnancy to the postnatal period. This book provides

information on the evidence-based management of women with hypertension throughout pregnancy, supported by important background information on the etiology, risk-factors and pathophysiology of these disorders. Illustrated with accompanying algorithms, tables and lists for quick reference on diagnostic criteria, drugs and side-effects, this book will help clinicians rapidly gain access to the information they need to care for these patients. This will be of interest to all grades of obstetric trainees as well as specialists, obstetric anesthetists and anesthetic trainees, midwives and maternal-fetal physicians.

*Moments of Grace* Laurie Blefeld 2018-04-18 Sharing our stories, who we are, what we love, how we feel, why we fear, connects us to one another. Weaving moments of grace with spiritual practices that have grounded her through life's challenges, Laurie Blefeld invites the reader into her sacramental stories. You will find yourself in Laurie's stories and reclaim bits and pieces of your own. "Our days are a stream of moments - some devastating, some down to earth and some filled with ineffable meaning. Laurie Blefeld has written a book full of tender moments that warm the heart and remind us to be grateful for and conscious of how laced with grace our lives really are. This is a book to enjoy and treasure."-Gunilla Norris, author of *Sheltered in the Heart* and *Companions on the Way: A Little Book of Heart-full Practices* "Laurie's

transformational stories, told in her authentic and lyrical voice, are evocative of the highs and lows in everyone's life. Laurie's generous prose connects us to her family's living history - and through it to our own. She is a natural spiritual teacher. *Moments of Grace* is luminous, warm, comforting and filled with such good practices."- Dr. Joan Borysenko, from the Foreword

**The Kidult Handbook** Nicole Booz 2018-05-15 Adulting is hard! But "kidulting"—engaging in nostalgic childhood activities to relieve stress, like playing with your old favorite toys, participating in games and activities from your youth, and even snacking on the foods you enjoyed as a kid— isn't. Let this book be your guide to indulging your inner child. "Kidulting" is a thing, and it's growing! Especially popular among millennials, the term "kidulting" refers to engaging in activities from your childhood, sometimes with a grown-up twist. Psychology Today points out that playing like a kid helps you look at the world with fresh eyes—or "beginner's mind"—which allows you to slow down and focus. The *Kidult Handbook* is a fun and informative guide to healthy escapism through play. Much like adult coloring books, kidulting is a way of focusing your mind on something fun and creative to relieve stress. But this book goes way beyond just coloring—it includes 160 ideas for fun, from timeless classics like building blanket and pillow forts, to generation-specific ideas, from millennials to boomers. Interspersed throughout are fun facts and trivia about games through the ages. Most activities are unplugged and screen-free, and range from solitary pursuits to ones you can share with a friend or two. Feeling young again has never been so easy!

**Forest governance by indigenous and tribal peoples** Food and Agriculture Organization of the United Nations 2021-03-25 The document summarizes the report that, based on a review of more than

250 studies, demonstrates the importance and urgency of climate action to protect the forests of the indigenous and tribal territories of Latin America as well as the indigenous and tribal peoples who protect them. These territories contain about a third of the continent's forests. That's 14% of the carbon stored in tropical forests around the world; These territories are also home to an enormous diversity of wild fauna and flora and play a key role in stabilizing the local and regional climate. Based on an analysis of the approaches that have proven effective in recent decades, a set of investments and policies is proposed for adoption by climate funders and government decision-makers in collaboration with indigenous and tribal peoples. These measures are grouped into five main categories: i) strengthening of collective territorial rights; ii) compensate indigenous and tribal communities for the environmental services they provide; iii) facilitate community forest management; iv) revitalize traditional cultures and knowledge; and v) strengthen territorial governance and indigenous and tribal organizations. Preliminary analysis suggests that these investments could significantly reduce expected carbon emissions at a low cost, in addition to offering many other environmental and social benefits.

**Tivoli Integration Scenarios** Redbooks Tivoli Integration Scenarios Team IBM 2011-01-11 This IBM® Redbooks® publication provides a broad view of how Tivoli® system management products work together in several common scenarios. You must achieve seamless integration for operations personnel to work with the solution. This integration is necessary to ensure that the product can be used easily by the users. Product integration contains multiple dimensions, such as security, navigation, data and task integrations. Within the context of the scenarios in this book, you see examples of these integrations. The scenarios implemented in this book are largely based on the input from the integration team, and several clients using IBM products. We based these scenarios on common real-life examples that IT operations often have to deal with. Of course, these scenarios are only a small subset of the possible integration scenarios that can be accomplished by the Tivoli products, but they were chosen to be representative of the integration possibilities using the Tivoli products. We discuss these implementations and benefits that are realized by these integrations, and also provide sample scenarios of how these integrations work. This book is a reference guide for IT architects and IT specialists working on integrating Tivoli products in real-life environments.

*European Anthropologies* Andrés Barrera-González 2017-08-01 In what ways did Europeans interact with the diversity of people they encountered on other continents in the context of colonial expansion, and with the peasant or ethnic 'Other' at home? How did anthropologists and ethnologists make sense of the mosaic of people and societies during the

nineteenth and twentieth centuries, when their disciplines were progressively being established in academia? By assessing the diversity of European intellectual histories within sociocultural anthropology, this volume aims to sketch its intellectual and institutional portrait. It will be a useful reading for the students of anthropology, ethnology, history and philosophy of science, research and science policy makers.

**Antistatic Sprays** National Aeronautics and Space Adm Nasa 2018-10-25 Antistatic sprays from several different manufacturers are examined. The sprays are examined for contamination potential (i.e., outgassing and nonvolatile residue), corrosiveness on an aluminum mirror surface, and electrostatic effectiveness. In addition, the chemical composition of the antistatic sprays is determined by infrared spectrophotometry, mass spectrometry, and ultraviolet spectrophotometry. The results show that 12 of the 17 antistatic sprays examined have a low contamination potential. Of these sprays, 7 are also noncorrosive to an aluminum surface. And of these, only 2 demonstrate good electrostatic properties with respect to reducing voltage accumulation; these sprays did not show a fast voltage dissipation rate however. The results indicate that antistatic sprays can be used on a limited basis where contamination potential, corrosiveness, and electrostatic effectiveness is not critical. Each application is different and proper evaluation of the situation is necessary. Information on some of

the properties of some antistatic sprays is presented in this document to aid in the evaluation process. Ming, James E. Goddard Space Flight Center
