Roommates and Other Anomalies
Sylvia Bergthold 2009-07
In ROOMMATES AND OTHER ANOMALIES, we encounter Julietta Jenkins, (JJ), who begins her journey with a major crisis in her life. Her landlord has the police on his tail, and poor JJ has to find another place to live, PRONTO. Newly arrived from the state of Vermont, she learns quickly that life in California is not as simple as she had hoped. Through many episodes while attempting to find the perfect roommate, she develops a keen sense of fair play and learns that life is not always what it seems. JJ grows to be the ultimate problem solver, a roommate advisor whose recommendations are frequently comical and surprising. This book is written in a journal format with a humorous tone. The reader will enjoy JJ s (and the authors) many experiences in living with roommates. Sylvia Bergthold has been supplementing her income for 35 years, by sharing her California home with roommates. As a consequence, she penned the self-guide manual Sorry, The Boa Has Gotta Go! A Roommate Survival Guide. Her book, popular among homeowners and numerous apartment dwellers eager for financial relief, has been instrumental in easing the economic burdens for many households. Writing roommate advice articles for numerous national newspapers, including domestic and foreign magazines, subsequently led to her stint as the roommate advisor on AllExperts.com. Recently retiring from that post, her expertise was again called upon by VideoJug.com: life explained on film. She and the Video Jug team created several successful videos on the various aspects of shared living. Her latest endeavor is the novel ROOMMATES AND OTHER ANOMALIES, a fictionalized account of her years sharing life with a multitude of roommates."

Trip of Fools
Martin P Mayer 2021-10-29
What could possibly go wrong when a group of naïve Americans, from a small Southern town, tour Italy as a group? Tour organizer Carl Minton has his hands full as his forty-four clients negotiate cultural differences, interpret Italian through Southern dialects, and encounter unexpected challenges during a tour that includes Rome, Tuscany, and Venice. To complicate matters, Carl and the handsome tour guide, Francois, appear to fall in love, and steal every opportunity to be alone together, while one of the passengers looks for every opportunity to steal. The mishaps include drunkenness, obstinacy and indolence, pick-pocketing, general forgetfulness, and, of course, shop-lifting. Carl’s trials are as exasperating as anything in a Kafka novel, but full of laughs on every page.

Francois explains the differences between the two societies and Carl manages, in spite of his trials, to appreciate the magnificent Italian countryside and the experience of love and friendship.

Net of Jewels
Ellen Gilchrist 2013-11-22
Home for the summer in Dunleith, Alabama, Rhoda Manning’s life appears at ease. But the headstrong, passionate 19-year-old refuses to settle for a comfortable, conventional existence. Yearning for a life of profundity, adventure, and beauty, Rhoda breaks from the seemingly secure world of her family to recklessly follow her dreams—but not without tragic and disturbing consequences. A failed marriage, shady abortion, an impulsive decision to sneak into a midnight meeting of the Klan, dates with her shrink, a deluge of booze, and a bout of repentance all seem to vie as the means to Rhoda’s own liberation. Gilchrist unflinchingly takes us through the turbulence of Rhoda’s formative years, on an outrageous coming-of-age journey of a young white woman in the 1960’s South—digging through the bone to reveal the chill of human experience. PRAISE: “One of the lies we enjoy telling ourselves is that when we were young, we were crazy and wild. But hey, sensitive, too, and reflective, full of conscience, already evolving into the mature human beings we are now. Ellen Gilchrist’s novel, Net of Jewels, provides an uncomfortable reminder that, more likely, we were controlled by brute forces—our raw emotions and emerging libidos, our parents and our desperate need to fit in, whatever that meant where and when we grew up.” —Chicago Tribune “Ellen Gilchrist refracts life through a prism of precious gems, a net of jewels. Her fiction is always a kind of prose poem, a dance of seven veils. Like all of Gilchrist’s work, her latest novel dazzles and pulsates, and even in the few passages of below-normal sheen, Net of Jewels still qualifies as an almost imperceptibly flawed diamond.” —Los Angeles Times In her ninth book, which begins in the mid-50’s, Ellen Gilchrist tracks a 19-year-old who drinks too much, marries too young, and is bored by her own children. The plucky Rhoda Manning has appeared in many of Gilchrist’s short stories; in Net of Jewels she positively struts. ...She struggles to free herself from the constraints of upper-crust Southern society, yet insists on enjoying all its advantages. Interestingly, Gilchrist chooses not describe Rhoda’s transformation into a “better” person ... “If we could understand one thing entirely, we might understand it all.” Rhoda philosophizes. ... An engaging novel [with] beauty and emotional horsepower. —Entertainment Weekly **Awkward**, Sam Scholfield 2011-08-09
No One Is Safe from Awkward! Ending a first date that falls flat. Drunk-texting your boss. Walking in when your roommate is getting it on. Running into the person you just dumped. . . . in the grocery store, an hour after it went down. We only realize what we should have said after the fact—when the damage has already been done and we’re a hot mess of embarrassment, red ears, and nervous sweat stains. But author Sam Scholfield has survived more than two decades of embarrassing encounters—and now, in an act of extreme generosity, has set down a wealth of witty comebacks, surefire distraction techniques, and suave evasion strategies so that future generations may take heed and dodge the Awkward Monster before it strikes! So how do you avoid the epic cluster of drama that can result when awkward situations are handled badly? You read this book.

I Married My Mother-In-Law
Ilena Silverman 2007-01-02
In-laws are the inescapable consequence of marriage. Whether they’re kindly or malevolent, helpful or crazy, they’re unavoidable. The relationship can be traumatic, rewarding, maddening, and hilarious—sometimes all at once. In I Married My Mother-in-Law and Other Tales of In-Laws We Can’t Live With—and Can’t Live Without, Ilena Silverman brings together a collection of talented, successful writers who plumb their own experiences for extraordinary and unexpected wisdom about this prickly and often misunderstood relationship. We hear from some of today’s best authors, including Michael Chabon, who writes movingly about the lessons he learned from his first father-in-law; Kathryn Harrison, whose relationship with her father-in-law was far more rewarding and less complicated than the one she had with her own father; Matt Bai, who struggled across cultural barriers to learn more about the lives of his reserved Japanese-American in-laws; Martha McPhee, who explores the difficulty in fully knowing her husband without ever having known his parents; Susan Straight, who recounts her experience as the first white woman to marry into her African-American husband’s extended family; and Ayelet Waldman, who ponders the competition between wives and their mothers-in-law for the attention of their husbands/sons. By turns blunt and poignant, horrifying and touching, the essays reflect the rich complexities of these bewildering and life-changing relationships. Remarkable for both the quality of its prose and the scope of its emotional insight, I Married My Mother-in-Law is an unforgettable anthology about the struggles and rewards of life with our other families.

Dangerous Love
Chad Ford 2020-06-23
“Chad Ford reminds us that humanity lies within all of us, and although conflict is everywhere here in today’s world, we have the tools we need to overcome obstacles and to thrive. This is a fantastic, timely book that I highly recommend.” -Steve Kerr, Head Coach, Golden State Warriors
Knowing how to transform conflict is critical in both our personal and professional lives. Yet, by and large, we are terrible at it. The reason, says longtime mediator Chad Ford, is fear. When conflict comes, our instincts are to run or fight. To transform conflict, Ford says we need to turn toward the people we are in conflict with, put down our physical and emotional weapons, and really love them with the kind of love that leads us to treat others as fellow human beings, not as objects in our way. We have to open ourselves up with no guarantee that anyone on the other side will do the same. While this can feel even more dangerous than conflict itself, it allows us to see the humanity of others so clearly that their needs and desires matter to us as much as our own. Ford shows dangerous love in action through examples ranging from his work in the Middle East to a deeply moving story about reconciling with his father. He explains why we disconnect from people at the very time we need to be most connected and the predictable patterns of justification and escalation that ensue. Most importantly, he gives us a path to practice dangerous love in the conflicts that matter most to us.

Buy Yourself the F*cking Lilies
Tara Schuster 2020-02-18
Brutally honest, often hilarious, hard-won lessons in learning to love and care for yourself from a young vice president at Comedy Central who was called "ahead of her time" by Jordan Peele "Compelling, persuasive, and useful no matter where you are in your life."-Chelsea Handler, #1 New York Times bestselling author of Life Will Be the Death of Me "A bracingly honest, funny read . . . like Wild meets You Are a Badass."-Adam Grant, #1 New York Times bestselling author of Give and Take, Originals, and Option B
By the time she was in her late twenties, Tara Schuster was a rising TV executive who had worked for The Daily Show with Jon Stewart and helped launch Key & Peele to viral superstardom. By all appearances, she had mastered being a grown-up. But beneath that veneer of success, she was a chronically anxious, self-medicating mess. No one knew that her road to adulthood had been paved with depression, anxiety, and shame, owing in large part to her minimally parented upbringing. She realized she'd hit rock bottom when she drunk-dialed her therapist pleading for help. Buy Yourself the F*cking Lilies is the story of Tara's path to re-parenting herself and becoming a "ninja of self-love." Through simple, daily rituals, Tara transformed her mind, body, and relationships, and shows how to * fake gratitude until you actually feel gratitude * excavate your emotional wounds and heal them with kindness * identify your self-limiting beliefs, kick them to the curb, and start living a life you choose * silence your inner frenemy and shield yourself from self-criticism * carve out time each morning to start your day empowered, inspired, and ready to rule * create a life you truly, totally f*cking LOVE This is the book Tara wished someone had given her and it is the book many of us desperately need: a candid, hysterical, addictively readable, practical guide to growing up (no matter where you are in life) and learning to love yourself in a non-throws-up-in-your-mouth-it's-so-cheesy way.

Excelling in College
Jeffrey Kottler 2011-01-01
There is a difference between surviving in college and thriving in college, especially when considering the change in environment for first-year students. They are expected to take on new roles and responsibilities such as speaking up in class, approaching instructors, making new friends, performing under pressure, dealing with financial struggles, and making healthy lifestyle choices on their own. With so many changes and challenges to deal with at once, it often results in a stressed-out student. In fact, persuasive evidence shows stress is the single most reported obstacle to academic success in college (CHRONICLE OF HIGHER EDUCATION, 2009). This is especially true of first-year students. In surveys conducted by the American College Health Association (2009) and the Cooperative Institutional Research Program (2009), half of all students reported feeling plagued by stress in the previous year. One-third found that there were times they were so overwhelmed that they could barely function on a daily basis. EXCELLING IN COLLEGE encourages students to perform their best using critical-thinking skills and stress management. By using exercises, in-class activities, and videos, readers learn how to manage these challenges in order to better maintain relationships with family and friends. These skills are not only helpful during college but also carry through the post-academic career. Apocalypse
Nancy Springer 2015-05-19
A woman returns to wreak end-of-the-world vengeance on her Pennsylvania hometown Disfigured since birth, Joanie Muser has endured decades of taunts and torments from the "normals" in Hoadley, Pennsylvania. Her only friend is a boy named Barry Beal, who has an ugly birthmark on his face. A few days after Barry lends her \$500 and his welder’s mask, Joanie disappears. Cally Wilmore, a vaguely discontented mother of two and the wife of the local funeral director, sees Joanie first: a breathtaking blond apparition galloping through town on a white steed. Rebel and resident cynic Gigi Wildasin senses that something peculiar is happening. The cicadas are crying out of season—modern-day locusts who swarm the town bearing dead children’s faces—and a blacksnake appears next to the most beautiful and erotic naked man anyone has ever seen. Cally and Gigi, along with Shirley Danyo and her lover, Elspeth, all ride horses to escape their everyday lives, unaware that they are the Four Horsewomen of doom. A familiar stranger has come to Hoadley with a terrible purpose, and for the inhabitants of this struggling coal-mining community, it seems that Judgment Day is nigh. An allegorical novel about small-town prejudice and the secrets that fester beneath the surface, Apocalypse is also about the power of love to triumph against all odds.

You Could Drive a Person Crazy
Scott Miller 2002
For years, conventional wisdom has held that theatre companies have to produce brainless, well-known, flashy shows to make money and stay afloat. But one regional theatre company out in the middle of America has been proving since 1991 that conventional wisdom is wrong. New Line Theatre consistently challenges its audiences, taking them on wild, intense, roller coaster rides, assaulting them with issues, challenging them with complex characters and themes, demanding that audiences not remain passive, sometimes producing shows very few people have heard of, daring to be controversial, aggressive, confrontational. And not only has New Line survived its first ten years, it’s sailing into its next ten years as healthy and as heartily supported by its public as ever. New Line Theatre has, once and for all, shattered the myth that audiences only like what they know, that audiences don’t like to think when they come to the theatre, that television has made us all into passive couch potatoes. On the contrary, New Line has proven that audiences—even those in the supposedly conservative Midwest—love to be challenged, shaken up, confronted, involved. This is New Line’s story.

Chronic childhood trauma, such as prolonged abuse or family violence, can severely disrupt a person’s development, basic sense of self, and later relationships. Adults with this type of history often come to therapy with complex symptoms that go beyond existing criteria for posttraumatic stress disorder (PTSD). This important book brings together prominent authorities to present the latest thinking on complex traumatic stress disorders and provide practical guidelines for conceptualization and treatment. Evidence-based assessment procedures are detailed, and innovative individual, couple, family, and group therapies are described and illustrated with case vignettes and session transcripts. **Jefferson Parish**

Jefferson Parish is the story of a boy, Matthew Laurent. Born during the post-desegregated south but before full acceptance of races "other" than his own, the white race. While much of the overt racism of the old south was gone, it was not totally eradicated. In fact, in the early 1980's there were still plenty of racist holdouts, unwilling to let their old, oppressive way die. Not long after the death of his brother, Matthew's life would dramatically change forever. Feeling alone and struggling to make sense of the world, Matthew befriended a new classmate, Jamal. Jamal, a black boy new to Jefferson Parish...shy and reserved at first, he and Matt would form a bond that would last a lifetime. Both Matthew and Jamal had big dreams. The boys, each in search of something, but

something very different from each other, wanted more than Jefferson Parish could offer. Matthew would eventually find himself working in the Middle East where he would meet a beautiful young woman that made him feel something he had thought he had lost forever. Events would compel Matt to return to Jefferson Parish and force him to address both old and new wounds. Back in the parish, he soon realized that while some people were willing to change, others were not. Matt's life is one of turmoil, though he himself is not tumultuous. Searching for meaning and stability, Matt's journey seems fraught with pain, yet he can't give up. Happiness might be right around the corner. Jefferson Parish is the story of family, by blood or other, racial intolerance, friendship and most of all forgiveness.

Almost Grown: Launching Your Child from High School to College Patricia Pasick 1998-03-17 A time of tumult, your children's transition from high school to college can also be a time of growth. This book shows you how. Almost Grown is a guide for parents to the final years of high school and first years of college, offering intelligent counsel not only in practical issues such as developing a college search plan or handling questions of money, sex, and substance abuse, but also in the psychological issues that arise during this family transition. Writing as both psychologist and parent, Patricia Pasick tackles the key question of how mothers and fathers can foster adolescents' growth and autonomy while maintaining family connections and stability. She also explores the unexpected: the impact of the changing family on younger siblings, the benefits and frustrations of college students' returning home, the challenges and opportunities that nontraditional families face, and more. Pasick delves into another critical yet underplayed aspect of the college transition: how parents' lives change. Almost Grown guides readers through this major step in adult development and new start to adult partnerships. Almost Grown contains advice from high school and college admissions counselors across the country and, at the heart of the book, stories of personal experience from parents and adolescents who are making, or have made, the transition.

9.17% solution Frances Horibe 2016-04-07 BOTH A NOVEL AND A BUSINESS BOOK This book has two parts. The first is a novel set in the company Summit, a very large consulting firm trying to recover from a devastating and very public scandal. It has become a pariah, the new tobacco. The best people have fled and it draws in those who are looking to cash in on its weakened state. With few qualifications and fewer morals, Jamie wrangles his way in, aiming for the top with as little work and as much manipulation as possible. Along the way he betrays his boss, parlays a rumor of another scandal into a job as the President's assistant, tries to blackmail a Vice-president for a cut of the scam, and eventually is defeated, almost incidentally, by a President who is using him as a pawn in her bigger game of power and control. Jamie's narrative is one of five overlapping stories of people in the company, all of which illustrate the emotional and sometimes disturbing dynamics in organizations when ego, trade-offs, personal preferences, and values come into conflict. The second part are management essays discussing the organizational undercurrent illustrated by each narrative. Much of what really drives organizations—the need for power, the need for control, the fear of taking a risk—are below the surface undercurrents. Unacknowledged, even denied, but nevertheless with a powerful ability to determine the direction of and even pull under the unsuspecting. Each essay challenges the reader to put him/herself in the place of the characters and come to grips with them. "e:I'm not sure how often one can say that a business book is a fun read, but this one surely is. Combining fiction and non-fiction, and drawing on history, personal experience and research literature, Ms. Horibe has leavened the mix with drole humour to produce a book that is cogent, insightful, and right on the money for the times in which we are living."e; Marcia ClementSenior Executive (ret.)Government of Canada"e;These are all issues we wish would go away so we don't have to deal with them. And depending on where you are in the organizational hierarchy, it will be easier to pretend they don't exist or to explain them away. Frances first uses the familiar medium of soap-opera-type dramatization in a novel format to expose them, and then uses an in-your-face essay style to analyze and explore their implications. It was refreshing to see words put around the unspeakable but then Frances confronts us to face up to who really has the power in today's organizations."e;Rod BrandvoldVice-President (ret.), Talent Management Canadian Blood Services"e;The heart of this book is a number of interconnected stories, each from the perspective of a different person in the same organization—this works very well in drawing out issues and perhaps, most importantly, allowing emotional aspects their full weight as in real life. The short essays that follow enable the author to address the lessons from the stories and to explore what can be done about them. Even when I disagreed with some of the arguments, I found myself many days later still thinking about them."e;John EdwardsFormer Commissioner Correctional Service of Canada "e;Like nothing I've ever read before. The novel part sucks you in via curiosity or caring—and then—like a season ending TV show—leaves you hanging with anticipation, curiosity and a dab of frustration. WHO would have thought it existed—a literary book on management theory! It teaches by stealth—as it captures you first with its compelling story line, 3-D character development, and dare I say it—mystery."e; Ed DiZazzoEAP counsellor/executive career coach"e;The essays provoked thought. It leads the reader to reflect on his/her own situation. You see parallels. You see yourself or others you work with. I made me wonder how often I rode a current versus trying to change or alter it. In my case, I think early on in my career, I learned to read then ride the currents, whereas now I try to cha
