Boundaries of Love Chinyere K. Osuji 2019-05-21 How interracial couples in Brazil and the US navigate racial boundaries How do people understand and navigate being married to a person of a different race? Based on individual interviews with forty-seven black-white couples in two large, multicultural cities—Los Angeles and Rio de Janeiro—Boundaries of Love explores how partners in these relationships ultimately reproduce, negotiate, and challenge the “us” versus “them” mentality of ethno-racial boundaries. By centering marriage, Chinyere Osuji reveals the family as a primary site for understanding the social construction of race. She challenges the naive but widespread belief that interracial couples and their children provide an antidote to racism in the twenty-first century, instead highlighting the complexities and contradictions of these relationships. Featuring black husbands with white wives as well as black wives with white husbands, Boundaries of Love sheds light on the role of gender in navigating life married to a person of a different color. Osuji compares black-white couples in Brazil and the United States, the two most populous post-slavery societies in the Western hemisphere. These settings, she argues, reveal the impact of contemporary race mixture on racial hierarchies and racial ideologies, both old and new.

Religion and Family Life Richard J. Petts 2019-05-03 There has been increased interest among scholars in recent decades focused on the intersection of family and religion. Yet, there is still much that is not well-understood in this area. This aim of this special issue is to further explore the influence of religion on family life. In particular, this issue includes a collection of studies from leading scholars on religion and family life that focus on ways in which religion and spirituality may influence various aspects of family life including family processes, family structure, family formation, family dissolution, parenting, and family relationships. The studies included incorporate both qualitative and quantitative analyses, incorporate a number of different religious traditions, focus on religiosity among both adults and youth, and explore a number of important issues such as depression, intimacy, sexual behavior, lying, divorce, and faith transmission.

Mixed Families in a Transnational World Josiane Le Gall 2021-11-30 Offering a transnational perspective on the processes of identity transmission and identity construction of mixed families in various parts of the world, this book provides an overview of how local, national, global contexts and inter-group relations structure the development of specific forms of belonging and identification. Featuring nine rich ethnographic studies situated in geographic areas less covered by scholarship on mixed families such as Québec, Morocco, Italy, France, Switzerland, Belgium, the Philippines, Thailand and Israel, the book’s contributions reveal how families’ everyday lives are shaped by historical and sociopolitical contexts, as well as by transnational dynamics and mobility trajectories. The studies illustrate the context-specific realities that shape social definitions of mixedness—whether religious, national, cultural, ethnic or racial—at local and transnational levels. The articulation of local and transnational perspectives on mixed families will be of interest to students and scholars of migration, transnationalism, families, ethnicity, race and racism in the social sciences (anthropology, sociology, history, social work, international relations and global studies). The book will also be of interest to policymakers, as well as activists and practitioners working in organizations offering services to mixed individuals, migrants, and their families.

Red and Yellow, Black and Brown Joanne L. Rondilla 2017-07-03 Red and Yellow, Black and Brown gathers together life stories and analysis by twelve contributors who express and seek to understand the often very different dynamics that exist for mixed race people who are not part white. The chapters focus on the social, psychological, and political situations of mixed race people who have links to two or more peoples of color—Chinese and Mexican, Asian and Black, Native American and African American, South Asian and Filipino, Black and Latino/a and so on. Red and Yellow, Black and Brown addresses questions surrounding the meanings and communication of racial identities in dual or multiple minority situations and the editors highlight the theoretical implications of this fresh approach to racial studies.

Families on the Margins Lynn H. Turner 2021-05-04 This book focuses on the diverse tapestry of families in contemporary U.S. culture. Each chapter explores a different kind of family and examines their specific communication behaviors. We live in times of increasing diversity that complicate our understandings of ourselves as well as others who may be quite different from us. These complexities also impact our definition of “family” in addition to our interpretation of family communication behaviors. This book provides an examination of family communication practices in families that are underrepresented in the research of the discipline, and underserved in U.S. culture: immigrant families; family members in interracial relationships; LGBTQ families; low-income Latinx families; families with an incarcerated parent; and families headed by grandparents. The book is an initial effort to expand the lens of family communication scholarship to focus on “families on the margins”. Through a variety of, sometimes unique, methods including textual analysis, in-depth interviews, and analysis of art projects collected at a Pride festival, each chapter in this collection adds to our knowledge of how we define family and how families communicate in the 21st century. The chapters in this book were originally published in a special issue of the Journal of Family Communication.

Racist America Joe R. Feagin 2014-01-21 This third edition of Joe R. Feagin’s Racist America is significantly revised and updated, with an eye toward racism issues arising regularly in our contemporary era. This edition incorporates more than two hundred recent research studies and reports on U.S. racial issues that update and enhance all the last edition’s chapters. It expands the discussion and data on concepts such as the white racial frame and systemic racism from research studies by Feagin and his colleagues. The author has further polished the book to make it yet more readable for undergraduates, including eliminating repetitive materials, adding headings and more cross-referencing, and adding new examples, anecdotes, and narratives about contemporary racism.

According to Our Hearts Angela Onwuachi-Willig 2013-06-18 DIV This landmark book looks at what it means to be a multiracial couple in the United States today. According to Our Hearts begins with a look back at a 1925 case in which a two-month marriage ends with a man suing his wife for misrepresentation of her race, and shows how our society has yet to come to terms with interracial marriage. Angela Onwuachi-Willig examines the issue by drawing from a variety of sources, including her own experiences. She argues that housing law, family law, and employment law fail, in important ways, to protect multiracial couples. In a society in which marriage is used to give, withhold, and take away status—in the workplace and elsewhere—she says interracial couples are at a disadvantage, which is only exacerbated by current law. /div

Black Sexualities Juan Battle 2009-11-24 Why does society have difficulty discussing sexualities? Where does fear of Black sexualities emerge and how is it manifested? How can varied experiences of Black females and males who are lesbian, gay, bisexual, transgender (LGBT), or straight help inform dialogue and academic inquiry? From questioning forces that have constrained sexual choices to examining how Blacks have forged healthy sexual identities in an oppressive environment, *Black Sexualities* acknowledges the diversity of the Black experience and the shared legacy of racism. Contributors seek resolution to Blacks' understanding of their lives as sexual beings through stories of empowerment, healing, self-awareness, victories, and other historic and contemporary life-course panoramas and provide practical information to foster more culturally relative research, tolerance, and acceptance.

Beyond Loving Amy C. Steinbugler 2012-09-06 In this book, Amy Steinbugler challenges the widespread assumption that interracial intimacy represents the ultimate erasure of racial differences. She finds that while interracial partners may be more racially progressive, they are not necessarily enlightened subjects who have managed to get beyond race. *Beyond Loving* adeptly examines how interracial couples experience race in their everyday lives and how they engage one another to address fundamental questions about the significance of race in contemporary life.

Intercultural Couples Jill M. Bystydzienski 2011-05-23 An analysis of intercultural couples in the US

Love Across Borders Kelly H. Chong 2020-09-29 High rates of intermarriage, especially with Whites, have been viewed as an indicator that Asian Americans are successfully "assimilating," signaling acceptance by the White majority and their own desire to become part of the White mainstream. Comparing two types of Asian American intermarriage, interracial and interethnic, Kelly H. Chong disrupts these assumptions by showing that both types of intermarriages, in differing ways, are sites of complex struggles around racial/ethnic identity and cultural formations that reveal the salience of race in the lives of Asian Americans. Drawing upon extensive qualitative data, Chong explores how interracial marriages, far from being an endpoint of assimilation, are a terrain of life-long negotiations over racial and ethnic identities, while interethnic (intra-Asian) unions and family-making illuminate Asian Americans' ongoing efforts to co-construct and sustain a common racial identity and panethnic culture despite interethnic differences and tensions. Chong also examines the pivotal role race and gender play in shaping both the romantic desires and desirability of Asian Americans, spotlighting the social construction of love and marital choices. Through the lens of intermarriage, *Love Across Borders* offers critical insights into the often invisible racial struggles of this racially in-between "model minority" group -- particularly its ambivalent negotiations with whiteness and white privilege -- and on the group's social incorporation process and its implications for the redrawing of color boundaries in the U.S.

Interracial Couples, Intimacy, and Therapy Kyle D. Killian 2013-10-15 Grounded in the personal narratives of twenty interracial couples with multiracial children, this volume uniquely explores interracial couples' encounters with racism and discrimination, partner difference, family identity, and counseling and therapy. It intimately portrays how race, class, and gender shape relationship dynamics and a partner's sense of belonging. Assessment tools and intervention techniques help professionals and scholars work effectively with multiracial families as they negotiate difference, resist familial and societal disapproval, and strive for increased intimacy. The book concludes with a discussion of interracial couples in cinema and literature, the sensationalization of multiracial relations in mass media, and how to further liberalize partner selection across racial borders.

Getting Real About Race Stephanie M. McClure 2017-08-24 This popular reader is an edited collection of short essays that address the most common myths and misconceptions about race and racism held by students, and by many in the United States in general. In the updated Second Edition of *Getting Real About Race*, editors Stephanie M. McClure and Cherise A. Harris continue to enlist leading experts and educators to address the arguments about topics that students will recognize from private conversations and public discourse, including colorblindness, meritocracy, educational attainment, and definitions of citizenship. Each

essay considers the evidence against one particular racial myth, and is written in clear, jargon-free language. The unique format of this book makes it especially conducive to productive discussions about race.

Two Plus Two Geoffrey L. Greif 2012-04-23 Friendships are undeniably important to an individual's health, longevity and wellbeing, but they can be equally important for the health and happiness of a couple. Just as a friend can provide a mirror to the self, another couple can provide a reflecting team that supports or impedes a relationship's growth. *Two Plus Two: Couples and Their Couple Friendships* offers an important framework for helping couples to have conversations about their friendships with other couples and to enrich their own relationships. When couples agree about how to spend their time alone and with others, they are more likely to have a happy marriage or relationship. Couple friendships have not been researched previously, despite their numerous benefits. Authors Geoffrey Greif and Kathleen Deal take an in-depth approach to this important topic. Based on interviews with more than 400 people--some of whom were interviewed with their partners, some who were interviewed alone, and some who have divorced--they find that couples fall into three general categories of making couple friendships: Seekers, Keepers, and Nesters. Drs. Greif and Deal discuss the different styles of interaction they've observed in couples as well as the findings from their research. Readings from their interviews illustrate what characteristics define Seekers, Keepers, and Nesters. Couples at any stage of their relationship will get a fresh understanding of how to seek, foster and sustain positive, healthy friendships.

Fade to Black and White Erica Chito Childs 2009-06-16 There is no teasing apart what interracial couples think of themselves from what society shows them about themselves. Following on her earlier groundbreaking study of the social worlds of interracial couples, Erica Chito Childs considers the larger context of social messages, conveyed by the media, that inform how we think about love across the color line. Examining a range of media, from movies to music to the web, *Fade to Black and White* offers an informative and provocative account of how the perception of interracial sexuality as "deviant" has been transformed in the course of the 20th century and how race relations are understood today.

The Myth of the Missing Black Father Roberta L. Coles 2010 Common stereotypes portray black fathers as being largely absent from their families. Yet while black fathers are less likely than white and Hispanic fathers to marry their child's mother, many continue to parent through cohabitation and visitation, providing caretaking, financial, and other in-kind support. This volume captures the meaning and practice of black fatherhood in its many manifestations, exploring two-parent families, cohabitation, single custodial fathering, stepfathering, noncustodial visitation, and parenting by extended family members and friends. Contributors examine ways that black men perceive and decipher their parenting responsibilities, paying careful attention to psychosocial, economic, and political factors that affect the ability to parent. Chapters compare the diversity of African American fatherhood with negative portrayals in politics, academia, and literature and, through qualitative analysis and original profiles, illustrate the struggle and intent of many black fathers to

be responsible caregivers. This collection also includes interviews with daughters of absent fathers and concludes with the effects of certain policy decisions on responsible parenting.

A White Side of Black Britain France Winddance Twine 2010 A White Side of Black Britain explores the racial consciousness of white women in the United Kingdom who have had children with black men, primarily British-born men of Caribbean heritage. Contending that social scientists do not adequately understand how white members of black families negotiate race, France Winddance Twine describes the everyday lives of white women raising children of African Caribbean descent in a racially diverse mid-size British city. Varying in age, income, and education, the women at the centre of Twine's ethnography share moving stories about how they met the fathers of their children, how they incorporate ideas about race and racism into their parenting, and how their thinking about race and social relations changed over time. Interviewing and observing more than forty multiracial families over the span of a decade, Twine discovered that the white women's sense of belonging and racial consciousness was derived as much from their interactions with their partner's family and friends as it was from their romantic relations with black men. In addition to the white birth mothers, Twine interviewed their children, partners, and extended families, and her book can be read in part as a dialogue about race among black and white members of the same families. It includes intimate photographs of the women and their children, partners, extended families, and community.

The Colors of Love Melinda A. Mills 2021-12-07 How multiracial people navigate the complexities of race and love In the United States, more than seven million people claim to be multiracial, or have racially mixed heritage, parentage, or ancestry. In *The Colors of Love*, Melinda A. Mills explores how multiracial people navigate their complex—and often misunderstood—identities in romantic relationships. Drawing on sixty interviews with multiracial people in interracial relationships, Mills explores how people define and assert their racial identities both on their own and with their partners. She shows us how similarities and differences in identity, skin color, and racial composition shape how multiracial people choose, experience, and navigate love. Mills highlights the unexpected ways in which multiracial individuals choose to both support and subvert the borders of race as individuals and as romantic partners. *The Colors of Love* broadens our understanding about race and love in the twenty-first century.

Racism Albert J. Wheeler 2005 Of all mankind's vices, racism is one of the most pervasive and stubborn. Success in overcoming racism has been achieved from time to time, but victories have been limited thus far

because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul. This bibliography brings together the literature.

Racing Romance Kumiko Nemoto 2009-07-10 Despite being far from the norm, interracial relationships are more popular than ever. *Racing Romance* sheds special light on the bonds between whites and Asian Americans, an important topic that has not garnered well-deserved attention until now. Incorporating life-history narratives and interviews with those currently or previously involved with an interracial partner, Kumiko Nemoto addresses the contradictions and tensions—a result of race, class, and gender—that Asian Americans and whites experience. Similar to black/white relationships, stereotypes have long played crucial roles in Asian American/white encounters. Partners grapple with media representations of Asian women as submissive or hypersexual and Asian men are often portrayed as weak laborers or powerful martial artists. *Racing Romance* reveals how allegedly progressive interracial relationships remain firmly shaped by the logic of patriarchy and gender inherent to the ideal of marriage, family, and nation in America, even as this ideal is juxtaposed with discourses of multiculturalism and color blindness.

Multiracial Americans and Social Class Kathleen Odell Korgen 2010-04-27 As the racial hierarchy shifts and inequality between Americans widens, it is important to understand the impact of social class on the rapidly growing multiracial population. *Multiracial Americans and Social Class* is the first book on multiracial Americans to do so and fills a noticeable void in a growing market. In this book, noted scholars examine the impact of social class on the racial identity of multiracial Americans, in highly readable essays, from a range of sociological perspectives. In doing so, they answer the following questions: Who is multiracial? How does class influence racial identity? How does social class status vary among multiracial populations? Do you need to be middle class in order to be an "honorary white"? What is the relationship between social class, culture, and race? How does the influence of social class compare across multiracial backgrounds? What are multiracial Americans' explanations for racial inequality in the United States? *Multiracial Americans and Social Class* is a key text for undergraduate and postgraduate students, researchers, and academics in the fields of sociology, race and ethnic studies, social stratification, race relations, and cultural studies.

The Company We Keep Grace Kao 2019-10-24 With hate crimes on the rise and social movements like Black Lives Matter bringing increased attention to the issue of police brutality, the American public continues to be divided by issues of race. How do adolescents and young adults form friendships and romantic relationships that bridge the racial divide? In *The Company We Keep*, sociologists Grace Kao, Kara Joyner, and Kelly Stamper Balistreri examine how race, gender, socioeconomic status, and other factors affect the formation of interracial friendships and romantic relationships among youth. They highlight two factors that increase the likelihood of interracial romantic relationships in young adulthood: attending a diverse school and having an interracial friendship or romance in adolescence. While research on interracial social ties has often focused on whites and blacks, Hispanics are the largest minority group and Asian Americans are the fastest growing racial group in the United States. *The Company We Keep* examines friendships and romantic relationships among blacks, whites, Hispanics, and Asian Americans to better understand the full spectrum of contemporary race relations. Using data from the National Longitudinal Study of Adolescent to Adult Health, the authors explore the social ties of more than 15,000 individuals from their first survey responses as middle and high school students in the mid-1990s through young adulthood nearly fifteen years later. They find that while approval for interracial marriages has increased and is nearly universal among young people, interracial friendships and romantic relationships remain relatively rare, especially for whites and blacks. Black women are particularly disadvantaged in forming interracial romantic relationships, while Asian men are disadvantaged in the formation of any romantic relationships, both as adolescents and as young adults. They also find that people in same-sex romantic relationships are more likely to have partners from a different racial group than are people in different-sex relationships. The authors pay close attention to how the formation of interracial friendships and romantic relationships depends on opportunities for interracial contact. They find that the number of students choosing different-race friends and romantic partners is greater in schools that are more racially diverse, indicating that school segregation has a profound impact on young people's social ties. Kao, Joyner, and Balistreri analyze the ways school diversity and adolescent interracial contact intersect to lay the groundwork for interracial relationships in young adulthood. *The Company We Keep* provides compelling insights and hope for the future of living and loving across racial divides.

Analyzing Contemporary Fertility Robert Schoen 2020-08-12 This edited volume offers state-of-the-art research on the dynamics of contemporary fertility by examining the implications of the economic and social forces that are driving the rapid change in fertility behavior, and the changing context, determinants, and measurement of contemporary human reproduction. The volume explores new theoretical avenues that seek to incorporate uncertainty, examine social contagion effects, and explain the rise in childlessness. Reproductive attitudes are re-examined in chapters that deal with models of parenthood and with the persistence of race-ethnic-nativity differences. A new and important subject of multi-partner fertility is also described by examining it in the context of total fertility and from the usually neglected perspective of men. The impact of divorce on fertility, the measurement of childlessness and the postponement of first births, the developments in assortative mating and fertility, and current patterns of interracial fertility are also addressed in this volume. By combining up-to-date research spanning the entire field to illuminate

contemporary developments, the book is a valuable source for demographers, sociologists, economists, and all those interested in understanding fertility in today's world.

Navigating Interracial Borders Erica Chito Childs 2005-05-24 "One of the best books written about interracial relationships to date. . . . Childs offers a sophisticated and insightful analysis of the social and ideological context of black-white interracial relationships."—Heather Dalmage, author *Tripping on the Color Line* "A pioneering project that thoroughly analyzes interracial marriage in contemporary America."—Eduardo Bonilla-Silva, author of *Racism without Racists: Color-Blind Racism and the Persistence of Racial Inequality in the United States* Is love color-blind, or at least becoming increasingly so? Today's popular rhetoric and evidence of more interracial couples than ever might suggest that it is. But is it the idea of racially mixed relationships that we are growing to accept or is it the reality? What is the actual experience of individuals in these partnerships as they navigate their way through public spheres and intermingle in small, close-knit communities? In *Navigating Interracial Borders*, Erica Chito Childs explores the social worlds of black-white interracial couples and examines the ways that collective attitudes shape private relationships. Drawing on personal accounts, in-depth interviews, focus group responses, and cultural analysis of media sources, she provides compelling evidence that sizable opposition still exists toward black-white unions. Disapproval is merely being expressed in more subtle, color-blind terms. Childs reveals that frequently the same individuals who attest in surveys that they approve of interracial dating will also list various reasons why they and their families wouldn't, shouldn't, and couldn't marry someone of another race. Even college students, who are heralded as racially tolerant and open-minded, do not view interracial couples as acceptable when those partnerships move beyond the point of casual dating. Popular films, Internet images, and pornography also continue to reinforce the idea that sexual relations between blacks and whites are deviant. Well-researched, candidly written, and enriched with personal narratives, *Navigating Interracial Borders* offers important new insights into the still fraught racial hierarchies of contemporary society in the United States.

Handbook of the Sociology of Racial and Ethnic Relations Hernan Vera 2007-08-03 The study of racial and ethnic relations has become one of the most written about aspects in sociology and sociological research. In both North America and Europe, many "traditional" cultures are feeling threatened by immigrants from Latin America, Africa and Asia. This handbook is a true international collaboration looking at racial and ethnic relations from an academic perspective. It starts from the principle that sociology is at the hub of the human sciences concerned with racial and ethnic relations.

Beyond Black Kerry Rockquemore 2008 The urgent debate over a multiracial category in the 2000 census forced the nation to reflect upon the important questions of what it means to construct and maintain a racial identity. Using in-depth interviews and survey data, *Beyond Black* documents how biracial people develop many different racial identities and how these self-understandings are derived from historical and contemporary social, cultural, interactional, and psychological processes.

Re-visioning Family Therapy Monica McGoldrick 2008-07-29 Now in a significantly revised and expanded second edition, this groundbreaking work illuminates how racism, sexism, and other forms of oppression constrain the lives of diverse clients a " and family therapy itself.
