The Cambridge Companion to the Guitar Victor Coelho 2003-07-10 From the first mention in courtly poetry of the thirteenth century to enormous global popularity in the twentieth, the guitar and its development comprises multiple histories, each characterised by distinct styles, playing techniques, repertoires and socio-cultural roles. These histories simultaneously span popular and classical styles, contemporary and historical practices, written and unwritten traditions and western and non-western cultures. This is the first book to encompass the breadth and depth of guitar performance, featuring thirteen essays covering different traditions, styles, and instruments, written by some of the most influential players, teachers, and guitar historians in the world. The coverage of the book allows the player to understand both the analogies and differences between guitar traditions, and all styles, from baroque, classical, country, blues, and rock to flamenco, African, Celtic, and instrument making will share the same platform. As musical training is increasingly broadened this comprehensive book will become an indispensable resource.

Harmonic Analysis for Scale Selection and Chord Substitution Curt Sheller 2003-01-01 Applying harmonic analysis principles with harmonized scale charts for scale selection and chord substitution. Harmonic Analysis is the understanding of the functional sequence of chords. It is the process used to analyze the harmonic structure of a progression, song or composition. This analysis is then used to make scale selections for improvisation and chord substitution.

Desired Artistic Outcomes in Music Performance Gilvano Dalagna 2020-10-02 Desired Artistic Outcomes in Music Performance is about empowering musicians to achieve their professional and personal goals in music. The narrative argues that developing musicians should be supported in conceptualizing and achieving their desired artistic outcomes (DAO), as these have been recognized as key elements in a successful career transition in and beyond their studies in higher education. The text explores the nature of DAO and illustrates how higher education students can be enabled to explore and develop these. The book draws on the findings from a range of exploratory studies which: Bring to light connections between contemporary topics in music, such as artistic research and career development; Contribute to existing discussions on innovative pedagogical approaches in higher education in music; and Offer theoretical models to support the broad artistic and professional development in young musicians. This is a text grounded in theory and practice, and which draws on case study examples, as well as historical perspectives and coverage of contemporary issues regarding employment in the music industries. The book will be of particular interest to aspiring music professionals and all those working in the areas of Music Education, Performance Studies and Artistic Research.
