Giving special attention to parallel corpora, which are collections of texts in two or more languages, and demonstrating the potential benefits for multilingual corpus linguistics research to both translators and researchers, this book: explores the different types of parallel corpora available, and shows how to use basic and advanced search procedures to analyse them; explains how to compile a parallel corpus, and discusses their uses for translation purposes and to research linguistic phenomena across languages; demonstrates the use of corpus extracts across a wide range of texts, including dictionaries, novels by authors including Jane Austen and Mikhail Bulgakov, and newspapers such as The Sunday Times; is illustrated with case studies from a range of languages including Finnish, Russian, English and French. Written by two experienced researchers and practitioners, *Corpus Linguistics for Translation and Contrastive Studies* is essential reading for postgraduate students and researchers working within the area of translation and contrastive studies.

**Quantile Regression** Roger Koenker 2005-05-05 Quantile regression is gradually emerging as a unified statistical methodology for estimating models of conditional quantile functions. By complementing the exclusive focus of classical least squares regression on the conditional mean, quantile regression offers a systematic strategy for examining how covariates influence the location, scale and shape of the entire response distribution. This monograph is the first comprehensive treatment of the subject, encompassing models that are linear and nonlinear, parametric and nonparametric. The author has devoted more than 25 years of research to this topic. The methods in the analysis are illustrated with a variety of applications from economics, biology, ecology and finance. The treatment will find its core audiences in econometrics, statistics, and applied mathematics in addition to the disciplines cited above.

*About Trees* Katie Holten 2015 About Trees considers our relationship with language, landscape, perception, and memory in the Anthropocene. The book includes texts and artwork by a stellar line up of contributors including Jorge Luis Borges, Andrea Bowers, Ursula K. Le Guin, Ada Lovelace and dozens of others. Holten was artist in residence at Buru BDP. While working on the book she created an alphabet and used it to make a new typeface called Trees. She also made a series of limited edition offset prints based on her Tree Drawings.

**Migrants and Literature in Finland and Sweden** Satu Gröndahl 2018-10-11 Migrants and Literature in Finland and Sweden presents new comparative perspectives on transnational literary studies. This collection provides a contribution to the production of new narratives of the nation. The focus of the contributions is contemporary fiction relating to experiences of migration. When people are in motion, it changes nations, cultures and peoples. The volume explores the ways in which transcultural connections have affected the national self-understanding in the Swedish and Finnish context. It also presents comparative aspects on the reception of literary works and explores the intersectional perspectives of identities including class, gender, ethnicity, "race" and disability. This volume discusses multicultural writing, emerging modes of writing and generic innovations. Further, it also demonstrates the complexity of grouping literatures according to nation and ethnicity. This collection is of particular interest to students and scholars in literary and Nordic studies as well as transnational and migration studies.

**Northern Archaeology and Cosmology** Vesa-Pekka Herva 2019-06-28 In its analysis of the archaeologies and histories of the northern fringe of Europe, this book provides a focus on animistic–shamanistic cosmologies and the associated human–environment relations from the Neolithic to modern times. The North has fascinated Europeans throughout history, as an enchanted world of natural and supernatural marvels: a land of light and dark, of northern lights and the midnight sun, of witches and magic and of riches ranging from amber to oil. Northern lands conflate fantasies and realities. Rich archaeological, historical, ethnographic and folkloric materials combine in this book with cutting-edge theoretical perspectives drawn from relational ontologies and epistemologies, producing a fresh approach to the prehistory and history of a region that is pivotal to understanding Europe-wide processes, such as Neolithization and modernization. This book examines the mythical and actual northern worlds, with northern relational modes of perceiving and engaging with the world on the one hand and the 'place' of the North in European culture on the other. This book is an indispensable read for scholars of archaeology, anthropology, cultural studies and folklore in northern Europe, as well as researchers interested in how the North is intertwined with developments in the broader European and Eurasian world. It provides a deep-time understanding of globally topical issues and conflicting interests, as expressed by debates and controversies around Arctic resources, nature preservation and indigenous rights.

**Blood Meridian** Cormac McCarthy 2010-08-11 25th ANNIVERSARY EDITION • An epic novel of the violence and depravity that attended America's westward expansion, *Blood Meridian* brilliantly subverts the conventions of the Western novel and the mythology of the Wild West—from the bestselling, Pulitzer Prize–winning author of *The Road* Based on historical events that took place on the Texas-Mexico border in the 1850s, it traces the fortunes of the Kid, a fourteen-year-old Tennessean who stumbles into the nightmarish world where Indians are being murdered and the market for their scalps is thriving.

**Wish** Melina Gerosa Bellows 2005 Chronicles the ups and downs, triumphs and tragedies, in the life of Bella Grandelli, from the 1970s to the present day, detailing her insecure childhood, her Notre Dame college days, her career as an entertainment journalist, her turbulent love life, and her lifelong relationship with her twin brother, Bobby. Original.

**Secret Son** Laila Lalami 2009-04-21 Raised by his mother in a one-room house in the slums of Casablanca, Yousef El Mekki has always had big dreams of living another life in another world. Suddenly his dreams are within reach when he discovers that his father—whom he'd been led to believe was dead—is very much alive. A wealthy businessman, he seems eager to give his son a new start. Yousef leaves his mother behind to live a life of luxury, until a reversal of fortune sends him back to the streets and his childhood friends. Trapped once again by his class and painfully aware of the limitations of his prospects, he becomes easy prey for a fringe Islamic group. In the spirit of *The Inheritance of Loss* and *The Reluctant Fundamentalist*, Laila Lalami's debut novel looks at the struggle for identity, the need for love and family, and the desperation that grips ordinary lives in a world divided by class, politics, and religion.

**Storytelling and Ethics** Hanna Meretoja 2017-09-18 In recent years there has been a huge amount of both popular and academic interest in storytelling as something that is an essential part of not only literature and art but also our everyday lives as well as our dreams, fantasies, aspirations, historical self-understanding, and political actions. The question of the ethics of storytelling always, inevitably, lurks behind these discussions, though most frequently it remains implicit rather than explicit. This volume explores the ethical potential and risks of storytelling from an interdisciplinary perspective. It stages a dialogue between contemporary literature and visual arts across media (film, photography, performative arts), interdisciplinary theoretical perspectives (debates in narrative studies, trauma studies, cultural memory studies, ethical criticism), and history (traumatic histories of violence, cultural history). The collection analyses ethical issues involved in different strategies employed in literature and art to narrate experiences that resist telling and imagining, such as traumatic historical events, including war and political conflicts. The chapters explore the multiple ways in which the ethics of storytelling relates to the contemporary arts as they work with, draw on, and contribute to historical imagination. The book foregrounds the connection between remembering and imagining and explores the ambiguous role of narrative in the configuration of selves, communities, and the relation to the non-human. While discussing the ethical aspects of storytelling, it also reflects on the relevance of artistic storytelling practices for our understanding of ethics. Making an original contribution to interdisciplinary narrative studies and narrative ethics, this book both articulates a complex understanding of how artistic storytelling practices enable critical distance from culturally dominant narrative practices, and analyzes the limitations and potential pitfalls of storytelling.

**The Hotel Neversink** Adam O'Fallon Price 2019-08-06 "A gripping, atmospheric, heart-breaking, almost-ghost story. Not since Stephen King's *Overlook* has a hotel hiding a secret been brought to such vivid life." —Lydia Kiesling, author of *The Golden State* Thirty-one years after workers first broke ground, the magnificent Hotel Neversink in the Catskills finally opens to the public. Then a young boy disappears. This mysterious vanishing—and the ones that follow—will brand the lives of three generations. At the root of it all is Asher Sikorsky, the ambitious and ruthless patriarch whose purchase of the hotel in 1931 set a haunting legacy into motion. His daughter Jeanie sees the Hotel Neversink into its most lucrative era, but also its darkest. Decades later, Asher's grandchildren grapple with the family's heritage in their own ways: Len fights to keep the failing, dilapidated hotel alive, and Alice sets out to finally uncover the murderer's identity. Told by an unforgettable chorus of Sikorsky family members—a matriarch, a hotel maid, a traveling comedian, the hotel detective, and many others—*The Hotel Neversink* is the gripping portrait of a Jewish family in the Catskills over the course of a century. With an unerring eye and with prose both comic and tragic, Adam O'Fallon-Price details one man's struggle for greatness, no matter the cost, and a long-held family secret that threatens to undo it all.

**The Brothers Seven** Aleksis Kivi 2017-01-16 Seitsemän veljestä (The Brothers Seven), the 1870 Finnish novel by Aleksis Kivi (1834-1872), is one of the most (in)famously unknown classics of world literature—unknown not only because so few people in the world can read Finnish, but also because the novel is so incredibly difficult to translate, the Mount Everest of translating from Finnish. It is difficult to translate not only because it blends a saturation in Homer, Shakespeare, Dante, Cervantes, and the Bible with a brilliantly stylized form of local dialect, but because it is wild, grotesque, carnivalesc, and laugh-out-loud funny on every page. It has been translated 58 times into 34 languages—but somehow the translations always seem to fall short of their flamboyant original. Douglas Labbin's new translation is a bold attempt to remedy that. He aims to make Kivi as rhythmic, as alliterative, as brash, as grotesque, and as funny in English as he is in Finnish. Since Kivi deliberately used an archaic Finnish, but used it playfully—and since Kivi was steeped in Shakespeare, to the point of memorizing whole plays—Robinson translates him into a playful Shakespearean register. As he notes in his Preface, this makes the translation a bit difficult to read—but the original is difficult for Finns to read as well, and the Finnish readers who love Kivi (and that is most of them) read him with pleasure despite the words they don't know, because his prose is so intensely alive.

**Cold War** Carole Fink 2013-12-24 Cold War is the first new book on the Cold War in many years. It looks beyond the US and USSR and treats the conflict from a global perspective, providing new insights and perspectives on key events and important cultural coverage.

**Eva's Threepenny Theatre** Andrew Steinmetz 2008 In an unusual fiction about memoir, Andrew Steinmetz tells the story of his great-aunt Eva who performed in the first workshop production of Bertolt Brecht's masterpiece *The Threepenny Opera*, in 1928. Steinmetz takes the story back to Eva's childhood in Germany, with her invalid mother and domineering siblings. Her training as an actress began just after her graduation from high school, and her introduction to the philosophies of Brecht and his contemporaries soon followed. With the pronouncement of the family's Jewish origins, both Eva and her brother left Germany to escape Nazi rule. Eva eventually settling in Canada. In their sessions with the tape recorder running, we see Steinmetz's own life as it intersects with Eva's, and his changing perspective on her life and work. Tied together with threads of Brecht's play, Steinmetz presents a life lived as though the world were a stage. A fictional tribute, *Eva's Threepenny Theatre* is as much concerned with what happened as what might have or was imagined to have been. "I'd known Eva since childhood," says Steinmetz, "and always in the back of my mind was this story I'd heard about her and *The Threepenny Opera*. I didn't know much about Bertolt Brecht, initially, but in my early twenties I was a songwriter and one night while I was in the studio recording, I got to talking with the engineer and later he pulled out a record of Lotte Lenya singing 'Seeräuberjenny' and 'Kanonen-Song.' That was it. Lenya's kitsch and the killer instinct: Eva talked like that. The droll, aloof, harsh cabaret style is incredibly moving, to me at least, something which seems to work almost despite itself. It was easy to see Eva as a product of Weimar Germany, of that precise period evoked by these songs. So I guess the initial and strongest connection between the novel and Brecht was through the lyrics he wrote for this music. As a socialist playwright, Brecht wouldn't touch naturalism, seeing it as an endorsement of a bourgeois or genteel world view, and I have to say, as a writer, I could never approach writing a family memoir wearing a straight face. Eva was schooled in Brecht, and so it felt right that the novel's form would reflect that, and at the same time bring about some genre consciousness. I also wanted some sort of emotional arc despite putting up with ideas of alienation and detachment. If this makes it sound like I've been working at cross purposes for the past fifteen years, which is as long as I've been at it, then that's exactly right." This book is a smyth-sewn paperback. The text is typeset in Sabon and printed offset on laid-finish paper making (estimated) 256 pages trimmed to 5.3 × 8.5 inches, bound into a paper cover and enfolded in a letterpress-printed jacket.

**Radiolabelled Molecules for Brain Imaging with PET and SPECT** Peter Brust 2020-11-26 Positron emission tomography (PET) and single-photon emission computed tomography (SPECT) are in vivo molecular imaging methods which are widely used in nuclear medicine for diagnosis and treatment follow-up of many major diseases. These methods use target-specific molecules as probes, which are labeled with radionuclides of short half-lives that are synthesized prior to the imaging studies. These probes are called radiopharmaceuticals. The use of PET and SPECT for brain imaging is of special significance since the brain controls all the body's functions by processing information from the whole body and the outside world. It is the source of thoughts, intelligence, memory, speech, creativity, emotion, sensory functions, motion control, and other important body functions. Protected by the skull and the blood–brain barrier, the brain is somehow a privileged organ with regard to nutrient supply, immune response, and accessibility for diagnostic and therapeutic measures. Invasive procedures are rather limited for the latter purposes. Therefore, noninvasive imaging with PET and SPECT has gained high importance for a great variety of brain diseases, including neurodegenerative diseases, motor dysfunctions, stroke, epilepsy, psychiatric diseases, and brain tumors. This Special Issue focuses on radiolabeled molecules that are used for these

purposes, with special emphasis on neurodegenerative diseases and brain tumors.

Franz Kafka 2011-02-28 Franz Kafka spent eight months at his sister's house in Zúrau between September 1917 and April 1918, enduring the onset of tuberculosis. Illness paradoxically set him free to write, in a series of philosophical fragments, his settling of accounts with life, marriage, his family, guilt and man's condition. These aphorisms have appeared with minor revisions in various posthumous works since his death in 1924. By chance, Roberto Calasso rediscovered Kafka's two original notebooks in Oxford's Bodleian Library. The notebooks, freshly translated and laid out as Kafka intended, are a distillation of Kafka at his most powerful and enigmatic. This lost jewel provides the reader with a fresh perspective on the work of a genius.

**Law and Justice in Literature, Film and Theater** Karen-Margrethe Simonsen 2013-03-22 This volume is a Nordic contribution to research on law and humanities. It treats the legal culture of the Nordic countries through intensive analyses of canonical Nordic artworks. Law and justice have always been important issues in Nordic literature, film and theater from the Icelandic sagas through Ludvig Holberg and Henrik Ibsen to Lars Noréns theatre and Lars von Trier's Dogme films of today. This book strives to answer two fundamental questions: Is there a special Nordic justice? And what does the legal and literary/aesthetic culture of the North mean for the concept of law and justice and for the understanding of the interdisciplinary exchange of law and humanities? The concept of law and literature as a research area was originally developed in countries of common law. This book investigates law and humanities from a different legal tradition, and contributes thus both to the discussion of the general and the comparative studies of law and humanities.

**Everything is Nice** Jane Bowles 2012 This is the definitive edition of Jane Bowles' stories, with a biographical note and photos. Jane Bowles wrote very little: just one perfect novel, *Two Serious Ladies*, a play, *In the Summer House*, and the dozen or so stories collected in this volume. But it was enough to establish a reputation as one of the twentieth century's most original fiction writers. From the title story where an American woman is led to a house in 'blue moslem town' by a veiled woman with porcupines in her basket, to *Camp Cataract*, a Colorado-based tour de force of middle-class claustrophobia and dread, *Everything is Nice* takes you into an ~~Algyptan~~~~Nerzh~~~~Sternsies~~~~Ungel~~ comic world.

Joy Williams 2016-07-12 A New York Times Notable Book and a Best Book of the Year at *Esquire*, *Seattle Times*, *Minnesota Star Tribune*, *Huffington Post*, and *Publishers Weekly*. From "quite possibly America's best living writer of short stories" (NPR), *Ninety-Nine Stories of God* finds Joy Williams reeling between the sublime and the surreal, knocking down the barriers between the workaday and the divine. Pulitzer Prize and National Book Award finalist Joy Williams has a one-of-a-kind gift for capturing both the absurdity and the darkness of everyday life. In *Ninety-Nine Stories of God*, she takes on one of mankind's most confounding preoccupations: the Supreme Being. This series of short, fictional vignettes explores our day-to-day interactions with an ever-elusive and arbitrary God. It's the *Book of Common Prayer* as seen through a looking glass—a powerfully vivid collection of seemingly random life moments. The figures that haunt these stories range from Kafka (talking to a fish) to the Aztecs, Tolstoy to Abraham and Sarah, O. J. Simpson to a pack of wolves. Most of Williams's characters, however, are like the rest of us: anonymous strivers and bumblers who brush up against God in the least expected places or go searching for Him when He's standing right there. The Lord shows up at a hot-dog-eating contest, a demolition derby, a formal gala, and a drugstore, where he's in line to get a shingles vaccination. At turns comic and yearning, lyric and aphoristic, *Ninety-Nine Stories of God* serves as a pure distillation of one of our great artists.

**Northern Lights** B. J. Epstein 2009 This volume is a collection of essays based on papers given at the Nordic Translation Conference, which took place in London in March 2008. The purpose of the collection is twofold. First, it serves to place the Nordic languages firmly into the field of translation studies, where hitherto little research has focused on the Nordic region; the essays include many Nordic-specific studies and ideas. Second, the book presents research and conclusions which are relevant to translation studies in all languages and cultures. Therefore this volume, which covers a wide range of Nordic languages and both literary and non-literary topics, is unambiguously pertinent to the Nordic countries while also being universally valuable.

Audrey Niffenegger 2009-10-06 Another brilliant, original and moving novel from the author of *The Time Traveler's Wife*. Julia and Valentina Poole are normal American teenagers — normal, at least, for identical "mirror" twins who have no interest in college or jobs or possibly anything outside their cozy suburban home. But everything changes when they receive notice that an aunt whom they didn't know existed has died and left them her amazing flat in a building by Highgate Cemetery in London. They feel that at last their own lives can begin ... but they have no idea that they've been summoned into a tangle of fraying lives, from the OCD-suffering crossword setter who lives above them to their aunt's mysterious and elusive lover who lives below them, and even to their aunt herself, who never got over her estrangement from the mother of the girls — her own twin — and who can't even seem to quite leave her flat....

**Nocturnes** Kazuo Ishiguro 2009-09-22 From the winner of the Nobel Prize in Literature and author of the Booker Prize–winning novel *The Remains of the Day* comes an inspired sequence of stories as affecting as it is beautiful. With the clarity and precision that have become his trademarks, Kazuo Ishiguro interlocks five short pieces of fiction to create a world that resonates with emotion, heartbreak, and humor. Here is a fragile, once famous singer, turning his back on the one thing he loves; a music junky with little else to offer his friends but opinion; a songwriter who inadvertently breaks up a marriage; a jazz musician who thinks the answer to his career lies in changing his physical appearance; and a young cellist whose tutor has devised a remarkable way to foster his talent. For each, music is a central part of their lives and, in one way or another, delivers them to an epiphany.
